

# BRIDGE

# *Who are we ?*

Student non-profit organisation

Our Aim: Utilise our academic skills to positively impact society

25

*Members in total*

10

*Different majors*

Resource Planning Phase - Connecting students and clients

Action Planning Phase – Kick off event with client to define and understand the problem

Execution Phase– Members create and test feasible solutions throughout the semester

## Process Optimization

1. Process mapping
  - Interviews with leader of the VC
2. Developing of three solutions to improve the existing process:
  - Reduce the amount of steps in the process (waste)
  - Improve/streamline current process
  - Reduce communication with Volunteers

## Project Management

1. Identify requirements of DM Aid for Project management software, e.g. technical requirements
2. Research phase
3. Real-life testing and implement the solution
