Global Plastics Treaty

"A plastic crisis is also a climate crisis. Plastic has a heavy carbon footprint and a heavy chemical footprint," she said.

Tweet

Volker Türk

@volker_turk

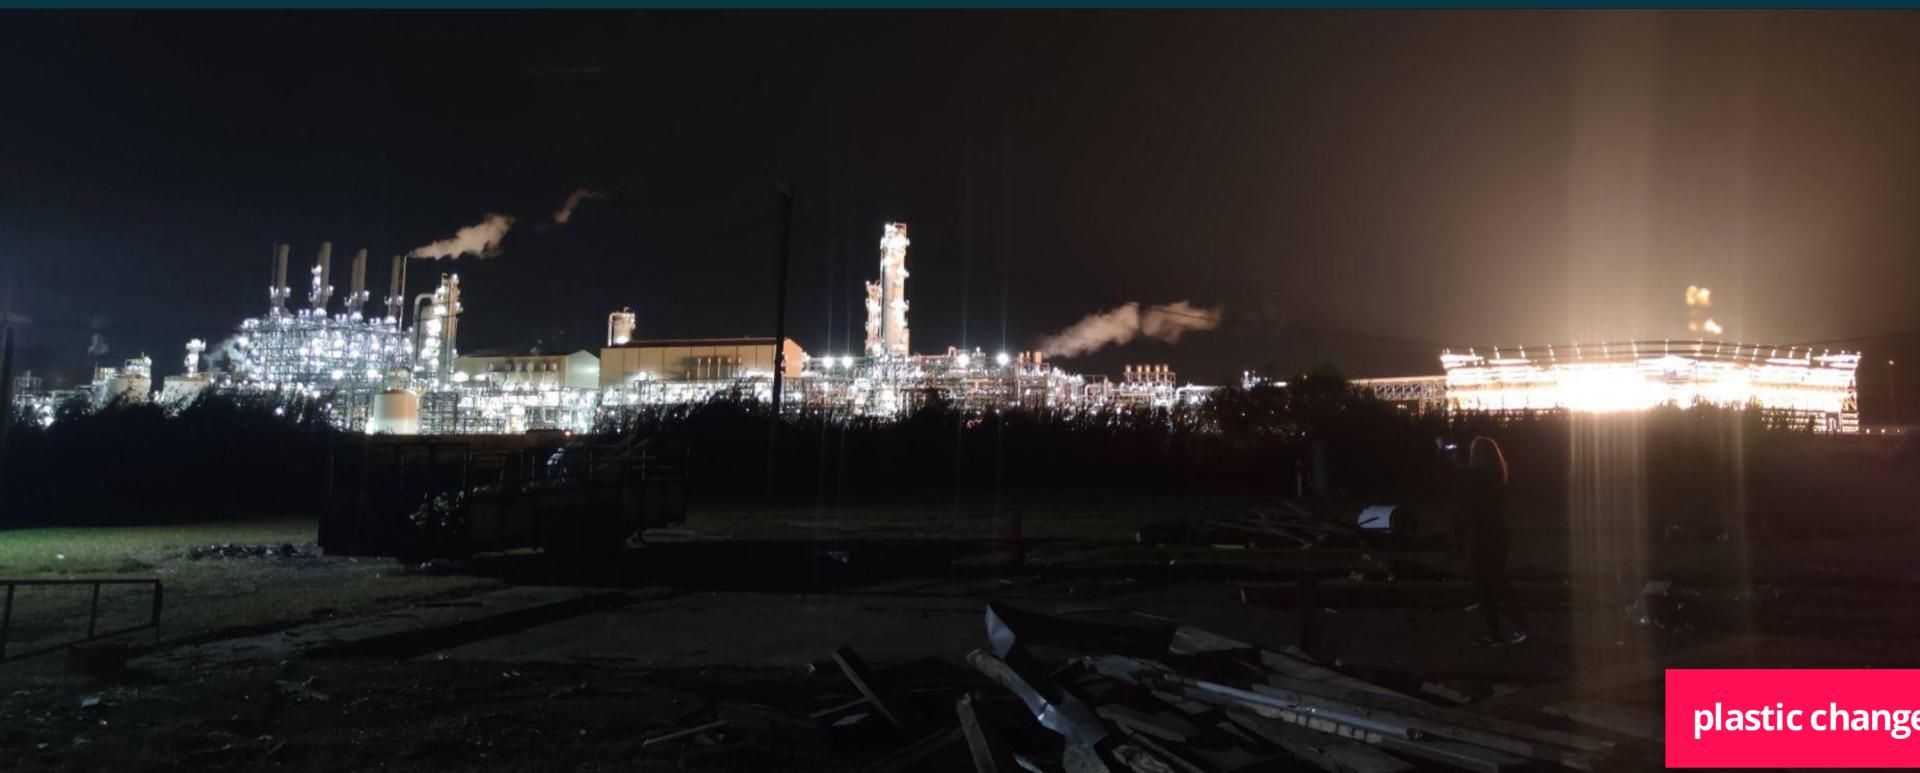

...

The whole cycle of plastics is now a global threat to human rights. We must ensure free, active, meaningful and informed participation in the new [#PlasticsTreaty](#) negotiations. We need clear boundaries on conflict of interest to ensure the new Treaty puts people before profits.

"Plastics are fossil fuels in another form," said U.N. Secretary-General Antonio Guterres, "and pose a serious threat to human rights, the climate, and biodiversity."

Petrochemicals

plastic change

Why is this important?

'Thanks to plastic, the fossil fuel industry still has a bright future ahead'
Patrick Pouyanné, CEO of Total Energies

Financial lock-in

plastic change

Fordørspolitik;

- Dansk supermarked
- Plasthandlingsplan - dengang og nu
 - ngo'ernes interesse daler
 - kollegaer

Financial lock-in

plastic change

Fordørspolitik;
Når lyset slukkes overlades
implementeringen til industrien

- Klimapartnerskaberne
- Det ulige magtforhold udstilles på
budgetter/netværk med tidlige Mfer

Vi taber for mange kampe:

- Øget plastikproduktion
- 2,3% beskyttet natur på land
 - PFAS
- Grundvandsforurening
- Kvælstof ødelægger livet i havet
 - klimaforandringerne vokser
 - Biodiversiteten falder

Naturen er en dårlig kunde

- paradokset: de nye grønne forretningsmodeller
 - demokratiske medspillere
- NGO'erne rådgiver politikerne

Hvordan sikrer vi at ngo'erne finansieres i fremtiden?

Financial lock-in
