

Environmental Policy

At FTS Logistics Sweden AB, we are committed to reducing our environmental impact and acting responsibly towards the environment in all aspects of our operations. We strive to be a leading player in the transport industry regarding sustainability and eco-friendly practices.

Our commitments include the following principles and goals:

- **Reducing Emissions:** We will continuously monitor and reduce our carbon emissions and other harmful emissions by investing in modern, fuel-efficient vehicles and optimizing our driving routines.
- **Efficient Resource Management:** We will streamline our resource management by minimizing the use of resources such as fuel, water, and energy. This includes choosing fuel-efficient vehicles, optimizing our transports, and reducing unnecessary wear and tear on vehicles.
- **Developing Greener Alternatives:** We will continue to explore and implement new technologies and methods that can reduce our environmental impact. This may include the use of renewable fuels, vehicle electrification, and other innovative solutions.
- **Education & Awareness:** We will continuously educate and inform our employees about environmental issues and sustainable work practices. By increasing awareness, we hope to engage all our employees in working towards a more sustainable future.
- **Compliance with Laws & Regulations:** We will adhere to all applicable laws and regulations related to environmental protection and sustainability. We will also strive to meet or exceed industry standards and best practices.

By actively following this environmental policy and continuously improving our work methods, we are confident that we can make a positive difference for the environment while continuing to deliver high-quality transport services to our customers. We look forward to collaborating with our stakeholders to achieve our shared environmental goals.

This policy will be reviewed and updated regularly to ensure it remains relevant and effective in relation to our environmental ambitions and current legislation.

Please contact us if you have any questions or comments regarding our environmental policy.
