

Testing Services

**Lab Data
On-Demand
24/7**

Stimulation, completions, and production chemicals.

Unbiased testing and data analysis to troubleshoot chemical performance issues. Contact us to learn more about our field sampling and monitoring services.

Capabilities

- ✓ Chemical Compatability
- ✓ Water Analysis
- ✓ Solid Analysis
- ✓ Bacteria Testing
- ✓ Formation Evaluation and
- ✓ Sensitivity Testing
- ✓ Surfactant Evaluantion
- ✓ Scale Evaluation
- ✓ Corrosion Testing
- ✓ Oil Characterization
- ✓ Paraffin and Asphaltene Inhibition

Consulting Services

**Full Asset
Lifecycle Support**

Optimize the performance of your assets

Whether you need to identify performance criteria of your chemicals, monitor product effectiveness, review technical data, or identify the right chemistry for your asset needs, our experts are ready to help.

Consulting Services Provided

- ✓ Stimulation and Production Chemical Optimization
- ✓ Product Performance Evaluation
- ✓ Chemical Program Design
- ✓ Market Insight
- ✓ On-Site Support
- ✓ Training
