

DÉYONICA

## THE REASON OF DÉYONICA

### The Story behind Deyonica

---

Fidan Durmaz loves to travel, after many years of traveling the founder got tired of carrying many beauty products with her all the time, just to fulfill the need.

The founder made a research trying to find the one holy product that contained all the needs she was looking for – without finding the product, she decided to create it by herself after a breast cancer diagnosis she invested everything and DÉYONICA was founded.

She wants everyone to feel that refreshed, young, healthy, moisturized face with a touch of glow to start off your day.

I look forward to introducing Déyonica for you.  
Best regards
