

# Clinical waterproof keyboard with touchpad

## Clinical waterproof keyboard with touchpad

- ✓ The design meets the high demands from the sections of food, medico and healthcare
- ✓ Sealed with a surface of industrial silicone without any edges which prevent dirt and bacteria from being hidden
- ✓ It is easy to disinfect with clinical cleansing agents because of the low keys
- ✓ Waterproof, IP65 and oblique
- ✓ Twelve functions keys and a numeric keyboard
- ✓ Turn on the lighting keys for working in surroundings with low light, Fn+F2 on/off, regulation
- ✓ You can lock the keys Fn+F1 and clean the keyboard without disconnecting
- ✓ The integrated touchpad is also sealed with silicone which makes the uniform surface without edges – important to avoid bacterial evolution.
