مكتب مراقبة جودة الحلال

Halal Quality Control Group (HQC) Registration Status with BPJPH

Issue Date: 1st of March 2024

Issued by: Halal Quality Control The Netherlands (Headquarters)

Reference Nr: HQC.IND.2024.002

To Whom It May Concern,

We are reaching out to share an important update regarding Halal Quality Control's (HQC) ongoing registration process with the Badan Penyelenggara Jaminan Produk Halal (BPJPH) of Indonesia. With the impending implementation of Indonesia's new regulation, which mandates Halal certification for incoming food and beverage products (except prohibited items or materials) starting from the **17th of October 2024**, HQC is actively taking steps to ensure full compliance and readiness.

As of March 2024, HQC has initiated the application process for accreditation of ten (10) of our offices, each seeking independent accreditation by BPJPH guidelines. This strategic approach is necessitated by BPJPH's policy, which requires a Halal Certification Body (HCB) to be approved within its country of registration, thereby not allowing for cross-border certification.

The HQC branches applying for accreditation with BPJPH include those in The Netherlands, France, Germany, Italy, Denmark, Belgium, United Kingdom, Austria, Poland, and Hungary. Although BPJPH has not yet conducted assessments in the European region, we are scheduled to be among the certification bodies assessed starting in April 2024. Our goal is to complete the accreditation process for all our applied offices well before the October 17th deadline, although the assessment duration for each country may differ.

We appreciate your understanding and patience as we navigate this comprehensive process. HQC is committed to maintaining the highest standards of Halal certification and ensuring that our services meet the evolving requirements of global Halal regulations.

If you need any further information or clarification or have questions, please feel free to contact us. We are here to assist and promptly address your needs and concerns.
