

# HAB Year report 2022

Also the year 2022 was influenced by the COVID pandemic and it was not possible to organize any missions abroad. Through the Webinars we were able to stay in contact with our colleagues in Nepal, India, and Ethiopia. This year we conducted Webinars with the participation of colleagues from Norway (Griet van Velthoven) and Sweden (Maggi Persson).

In 2022, a project was started by Rozemarijn Moet. She is an occupational therapist and is doing a (completed?) master's degree in innovations in health care and she has looked at how we can better structure the demand from colleagues abroad so that in our missions and Webinars we better connect to the demand interests from the countries.

We are looking forward to the new year and making plans with possibly visits to the countries of our Hand Therapy colleagues.

Financially, there are several options for training and support. We can also think about other kind of help where perhaps hand therapists from these countries can be sponsored to do training elsewhere.
