TECHNICAL SKILLS

GUI	MS.Net Technologies ,Visual Studio 2005/2008/ 2010/2012/2013/2015
Operating Systems	MS-Dos, Windows Family(XP/7/2008/2012)
Languages	C#.Net, ASP.Net, ADO.Net, Classic ASP , VB.Net, C, C++
Database	MS SQL Server , MS-Access ,Oracle
Web Development Tools	HTML, Java Script, AJAX , JQuery

EMPLOYMENT HISTORY

Organization	Period		Designation
	From	To	
1. <i>Black Knight Inc</i>	May'17	Till Date	Application Analyst III
2. Booardridge Financial Pvt. Ltd.	Jan '15	Apr'17	Sr. Software Engineer
3. Value Labs	Jun '12	Jan'15	Software Engineer

EDUCATION

LEVEL	Qualification	BOARD/ UNIVERSITY	YEAR OF PASSING
Engineering graduation	B-Tech (IT)	KIIT Deemed University, Bhubaneswar	2006
XII STD	12 th	CHSE, Odisha	2001
X STD	10 th	BSE, Odisha	1999

Project Details

Project # 1:

Project Title

: **Recorder Data QC**

Role

: **Sr. Application Analyst**

Tools Used

: C#.Net, SQL Server 2014, Web service, WCF service, MVC, AngularJS

Duration

: **Continuing**

Description

: The **Data QC** project is overall to correct and/or maintain property data entered by vendors in a county.

- Working on DB layer interaction with SQL Server
- Working on the error handling of the DB layer
- Worked on the bug fixing and enhancements.
- Working jQuery webapi calls .
- Worked with jqGrid and it's different functionalities.

Project # 2:

Project Title

: **SiteX Pro**

Role

: **Sr. Application Analyst**

Tools Used

: C#.Net, Windows Service, SQL Server 2014, Web service, WCF service, MVC

Duration

: **Ongoing support phase**

Description

: The SXP project is overall to identify the property details along with lien service .

- Working on DB layer interaction with SQL Server
- Working on the error handling of the DB layer
- Worked on the bug fixing and enhancements .
- Working jQuery webapi calls .

Project # 3:

Project Title : **Title Pro 247**
Role : **Sr. Application Analyst**
Tools Used : C#.Net, Windows Service, SQL Server 2014, Oracle, Web service, WCF service
Duration : **Continuing**
Description : We are working in Title verifying project. This will search the property and all the related liens.

- Working on DB layer interaction with SQL Server
- Working on the error handling of the DB layer
- Worked on the bug fixing and enhancements .

Project # 4:

Project Title : **ICS Online (DACA)**
Role : **Sr. Member Technical**
Tools Used : MVC , C#.Net, Windows Service, SQL Server 2014, DB2
Duration : **Ongoing**
Description : The current Agenda Coding system stores agendas in Mainframe VSAM files. This new solution will allow us to move the agendas onto a more-accessible DB2 database that will be available to other systems. The DB2 database will become the new "golden source" for agendas and allow future development, beginning with Sunset VIF. Agendas will still be copied to the Mainframe for use by existing print and tabulation systems, but they will only be editable through the new agenda coding application.

- Migration of existing Mainframe process to Web UI .
- Working on the error handling of the DB layer
- Working on export functionalities with customization for DataTable extensively .

Project # 5:

Project Title : **ICS Online**
Role : **Sr. Member Technical**
Tools Used : ASP.Net, C#.Net, Classic ASP, Windows Service, SQL
Duration : **Continuing**
Description : It's existing application in classic ASP for Investor communication System in USA securities which offers the convenience of electronic delivery of annual reports, interim statements and proxy statements -- even vote online. The application notify the customers e-mail when these materials become available on the Internet.

- Migration of existing ICS Delivery application from classic ASP to ASP.NET.
- Developing new enhancements with maintaining classic asp code.
- Develop new interface and enhance features on web site (HTML, VB Script, JavaScript, ASP, SQL Server, ADO).

Understanding the logic from existing asp code and migrating to .NET.

- Implementing **HTTP module and Response filters.**

Project # 6:

Project Title : **Serenata Flowers**
Role : **Sr. Software Engineer**
Tools Used : ASP.Net, C#.Net, Classic ASP, XML/XSLT, ASP.NET, C# and SQLServer
Duration : 12months
Description : It's an E-Commerce solution to buy flowers or hampers via online. Serenata Flowers has multiple websites that enable users to order Flowers, Gift Hampers, Chocolates, and Wines online. The project allows various modules to manage the orders and customer services viz. admin panel, mobile websites, Windows services etc. It takes account of below technologies to achieve the business goal.

- Developing new enhancements with maintaining classic asp code .

- Maintain existing website while new interface and website structure developed.
- Creating functions in VB script which can be called from asp pages .
- Review the client specifications with the customizations specified and analyze the impact on the existing functionality.
- Understanding customer functional requirements and work towards closure of those issues, successfully work on multiple tasks or projects, provide clear, accurate solution and prompt communication to the Client Support team in the UK.

Project # 7:

Project Title : **ITD (Dude Solutions)**
Role : **Software Developer**
Tools Used : ASP.Net, C#.Net, ADO.Net, MS SQL Server 2008 R2, IIS, Visual Studio 2008, AJAX
Duration : 4months
Description : ITDirect (ITD) – IT help desk management, providing web-based incident submission, incident approval and assignment, workflow processing, and cost management. Schools utilize a great deal of technology, from computers to smartboards, tablets to IP-addressable projectors. That technology utilization is only growing with time, as is the work required to repair and maintain that technology. Faculty and staff rely on the school’s IT Department to handle the maintenance, upgrading, and repair of IT equipment, and managing the workflow around those tasks is where ITDirect provides its value.

- Involved in the analysis and design of the application by studying the Business Requirements Document/WhitePaper .
- As a team member my role was the modification and coding of the module .Designed specific web pages for the application interface using ASP.Net user controls .

Project # 8:

Project Title : **FSD(Dude Solutions)**
Role : **Software Developer**
Tools Used : ASP.Net, C#.Net, ADO.Net, MS SQL Server 2008 R2, IIS, Visual Studio 2008, AJAX
Duration : 9 months
Description : FSDirect is a Cloud-based facility usage solution that manages educational facility usage requests from the school and community, simplifies the scheduling and permit process and accounts for usage expenses. FSDirect gives you the tools that you need to streamline your school’s facility scheduling – and by adding schedule automation, community use, and field trip management – you can simplify your entire event management process.
