## Dealcoholized Wine – Rosé Cuveé

---

Alkoholgehalt <0,5 % Vol.

Restsüße 4,2 g/l

Gesamtsäure 6,2 g/l

We finally have the first good non-alcoholic rosé without alcohol and are pleased to be able to add it to our range. With the strawberry notes it is made for nice long aperitifs, but also goes very well with antipasti or fish. A sip of summer in a glass - without alcohol!

We also like to enjoy it as a spritzer.
