

HONEYDEW
HEALTHCARE LTD
— IN CARE WE TRUST —

**TRANSITION TO
INDEPENDENCE SERVICES**

About us

Our Mission

Honeydew Healthcare Ltd.'s mission is to improve the lives of individuals in need by providing a broad variety of home care services, nursing agency services, and transition to independence services. We try to support our clients' independence, well-being, and dignity, enabling them to live full lives in the comfort of their own homes.

Welcome to Honeydew Healthcare Ltd., a leading provider of home care services, nursing agency services, and transition to independence services. We understand the importance of quality and compassionate care, and we strive to deliver the highest level of support to individuals in need.

Our Management

Honeydew Healthcare Ltd. is proud of its hardworking management team. Our managers contribute a wealth of knowledge and skills from years of experience in the healthcare business to guarantee the seamless running of our services. They collaborate closely with our staff and clients to provide the best possible outcomes for all parties involved.

Our Staff

Our caring and talented workers form the foundation of our firm. We are happy to have a varied group of carers, nurses, and support staff that are committed to providing our clients with great care. To provide personalised and dependable services, each member of our staff goes through rigorous training and adheres to the highest industry standards.

Our TTI services

In providing Transition to Independence services for young adults aged 18 to 26, Honeydew Health Care Ltd. is your dependable partner. We recognise that moving into adulthood may be difficult, which is why we are here to advise and support you every step of the way at Honeydew.

We aim to help young adults develop the skills and confidence they need to live independent, happy lives. With our broad suite of services, we provide an environment conducive to personal development and self-discovery.

What do we do to support?

The consistent support we provide is a crucial component of our strategy. Our experienced team of specialists is committed to providing individualised care that meets each young adult's specific requirements.

We believe in establishing a holistic approach to care at Honeydew Healthcare, concentrating not only on physical well-being but also on emotional, educational, and social growth.

We provide a wide variety of services, such as mental health support, educational counselling, life skills training, and recreational activities. Our devoted team of specialists is here to support and empower people at this vital moment of transition, assisting them in developing resilience and defining a bright future.

Our homes

We feel that a welcoming home environment is critical to a smooth transition to independence. Honeydew Healthcare Ltd. provides secure and pleasant residences that are tailored to the requirements of young adults. Our homes have all the required conveniences, fostering an environment that promotes development, creativity, and social interaction.

The programme offers:

- Between 2 and 4 people share a beautiful house.
- Each young person has their own room, decorated to their taste.
- Person-focused programmes of support
- TV plus Sky
- Free, unlimited Wi-Fi
- Round-the-clock staff support
- Independent living skills are guaranteed by the end of the programme.
- Employment and further education opportunities are enhanced.
- We welcome and are trained to support people with a learning disability, as well as Unaccompanied asylum-seeking children (UASCs).

You can rely on Honeydew Healthcare Ltd. to be there for you every step of the way if you choose us. We are committed to providing a caring, loving, and inclusive environment in which young adults may attain their full potential.

Our referral process

1. Initial Assessment:

Honeydew Healthcare Ltd. receives referrals from social workers, care coordinators, and healthcare experts. Referral forms should contain the client's contact information, medical history, and any supporting documentation.

2. Review and Eligibility:

The Honeydew Healthcare team evaluates the referral to establish the client's transition to independence programme eligibility. We will evaluate the client's independence, support needs, objectives, and challenges.

3. Intake Interview:

An intake interview is scheduled for eligible individuals. Honeydew Healthcare will interview them to learn about their needs, preferences, and goals.

4. Detailed Assessment:

A specialist conducts a thorough examination after the intake interview. We will assess the client's strengths, challenges, and areas where they need support to transition to independence.

5. Care Plan Development:

We will create a client-specific care plan using the assessment information. The care plan provides precise objectives, interventions, and tactics to support the client's independence.

6. Implementation of Support Services:

We will start support services when the care plan is completed. Therapy, life skills training, counselling, and community integration are possible services.

7. Regular Monitoring and Review:

We will conduct continuous evaluations and improvements to enable support services to be optimised.

Contact us

Honeydew Healthcare Ltd. is the right option for your home care needs because of our consistent dedication to delivering compassionate, dependable, and person-centred care. Contact us now to set up a consultation and learn how we can help you live a full and independent life in the comfort of your own home.
