

Graduation internship in Online Marketing & Communication

Period: 4-8 months, as soon as possible

Location: Hortimare BV, Heehugowaard

Do you have a passion for text writing, picture taking and design? Would you like to gain more experience while working in an innovative and impact-driven environment?

The assignment:

As Hortimare has taken an industry leading position within the seaweed industry globally, we need our online presence to get to the next level. Within this internship, you'll have a big impact on the repositioning of Hortimare from a seed provider to a partner in scaling the seaweed sector (that happens to have good quality seeds). We want to do this by highlighting the high level of applied scientific research, successful collaborations and high level of product quality that we've been able to achieve over the years.

The focus of the internship will be:

- Translating our marketing goals, broader target group and draft plans to a real marketing plan
- Collaborating with a web designer and the internal team on our website's appearance and content
- Collaborating with lead seaweed researchers to write content for the "news" page on our website
- Creating a content calendar for social media platforms such as Instagram and LinkedIn
- Getting to know the exciting world of seaweed production

What Hortimare is looking for:

- Study background in marketing communication
- Basic WordPress skills
- Skills in design software (InDesign, Photoshop, Canva) and photography or videography are an advantage
- Curious, talent to organise, proactive, team player, creative, precise
- Fluent in English, verbal and written
- Interest in Biology, Sustainability and the seaweed sector

Our offer:

Hortimare offers a challenging internship in a unique and passionate work environment. Our team is committed to providing a supportive and engaging environment. Travel expenses will be reimbursed, and we offer a maximum of € 650,- per month to cover accommodation costs.

Information:

If you are excited about contributing to a sustainable future and joining Hortimare, please contact Suzan Vellekoop and for more information. suzan.vellekoop@hortimare.com.

Applications :

In order to apply for this position, please send your application letter together with your resumé as soon as possible to hrm@hortimare.com for the attention of Ms. Nanouk van Eijk. If possible, we would be interested to see one or two projects that you've completed before. Examples are: a pitch deck for a project assignment, a poster you've designed for an event or written content for a previous internship.

Why seaweed?

Seaweed has great potential to have a positive impact on global (environmental) challenges. It is one of the fastest growing plants, and can be used for a variety of applications, such as food, packaging, and as raw material. Seaweed farming does not require added fertilizers or fresh water and can provide a much more sustainable alternative to land farming. The demand for seaweed is increasing by about 8% per year worldwide, all the reason to cultivate it responsibly and professionally.

Hortimare BV is the supplier of high-quality starting material (seed) for seaweed farmers. Our mission is to contribute to a sustainable future, by making seaweed a competitive alternative for land-based products. To accomplish this we advise, support, and collaborate closely with seaweed farmers. In addition, we contribute to (international) research projects with our scientific knowledge of breeding and propagating various species of seaweed.
