Introduction

The Special Educational Needs and Disability Act (2001) requires schools to produce Accessibility Plans every three years. This duty has been replicated in the Equality Act 2010. This Accessibility Plan applies to the whole school for the period January 2023 to December 2025.

The Governing Body continues to focus on its three key duties towards disabled pupils:

- not to treat disabled pupils less favourably because of something arising in consequence of their disability
- to make reasonable adjustments for disabled pupils so that they are not at a substantial disadvantage
- to plan to increase access to education for disabled pupils.

This Plan sets out the strategies of the Governing Body of Hulme Hall Grammar School to:

- increase the extent to which disabled pupils (including those with learning difficulties) can participate in the School curriculum
- improve the physical environment of the School to increase the extent to which disabled pupils are able to take advantage of education and benefits, facilities or services provided or offered by the School
- improve the delivery for disabled pupils of information readily accessible to pupils who are not disabled
- ensure the school meets the needs of staff with a disability.

The plan will also review ways to assist pupils with Special Educational Needs who would not be classified as disabled under the Equality Act. For such pupils the School has a responsibility to meet their special needs and, for those classified as disabled, a duty to prevent discrimination against them in their access to education.

The Purpose of the Plan

We strive to offer the highest quality of teaching and learning and support to all pupils in the pursuit of academic and personal excellence. We have high expectations of all of our pupils and we strive to ensure that each and every pupil can take part in the whole school curriculum.

We value the diversity of our school community and appreciate the contribution that pupils with special educational needs (SEN) and/or disabilities can bring to school life. We have an admissions policy and criteria (available to view on our website) which seeks to remove barriers to entry to our school for pupils with special needs and/or disabilities. We strive to be a fully inclusive and welcoming school as our aims and ethos state.

The school recognises the value of each pupil as an individual, and the importance of nurturing every aspect of their personality and potential – intellectual, creative, emotional, physical and spiritual. We encourage all pupils of all ages, backgrounds and religions at all times to discuss any issues or concerns with members of staff, working in partnership with parents to provide each individual with the support necessary to develop confidence and to flourish and thrive in a secure and supportive environment.

We promote high standards of good behaviour which require pupils to be considerate, polite, respectful and helpful towards each other. They learn to recognise the need to be responsible and reliable, to show loyalty appropriately and to support each other constructively.

We aim to:

- Provide an excellent and challenging academic education in a caring and supportive atmosphere
- Give opportunities for each pupil to develop not only intellectually but also creatively, spiritually and morally
- Create conditions in which initiative and independent thought and inquiry are welcomed and a lifelong enjoyment of learning is cultivated
- Foster high standards of behaviour and mature, responsible, considerate attitudes both in and out of school
- Encourage all pupils to participate in a wide range of extra-curricular activities which encourage personal and physical development and which inculcate a sense of self belief and esteem
- Provide opportunities for pupils to act as leaders in the school community and to work together with the wider community
- Ensure, as far as possible, that pupils are equipped to face the challenges and demands of life beyond school, becoming active and responsible citizens.

We have pupils with a range of the disabilities and difficulties including the following:

- Medical disabilities: Attention Deficit Hyperactivity Disorder (ADHD), hearing and visual impairment
- Development disabilities: Autism Spectrum Condition (ASC)
- Learning difficulties: Dyslexia, dyscalculia and dyspraxia.

All our pupils are fully integrated into school life and participate in the whole curriculum including extra-curricular activities (such as school trips).

We take a fully inclusive approach to our staff recruitment and aim to appoint the best person based on their skill set and qualifications and regardless of any disability he/she might have. We actively implement the school's Equal Opportunities Policy for staff in the day-to-day management of the School. All staff are provided with the necessary support for their roles. We regularly review our staff's needs to ensure these are being met.

2023 – 2025 Accessibility Plan - Actions and Targets

The school’s accessibility plan for 2023-2025 is a written action plan with targets which are resourced, implemented, reviewed and revised as necessary. We will regularly monitor the success of the plan and it will be reviewed annually by the Governing Body and the school’s Senior Leadership Team.
