I Care So I Share International continue working hard to serve orphans and the underprivileged through educational support. We are delighted to have impacted more than 150 through sanitary wear and school supplies. School supplies and sanitary wear are key items to keeping children in school. African underprivileged often drops out of school due to lack of such important items. We continue rejuvenating hope of the young stars and nurturing their dreams by responding to these essential needs. Children are very much excited to receiving such help and we continue praying and hoping to impact even more children.

IMPORTANCE OF SANITARY WEAR SUPPORT

A lot of girls have been dropping out of school due to lack of Sanitary Wear. Some of them have been absent from school due to lack of the same. I Care so I Share thrives to ensure that girls stay in school. We are thrilled to having been to impact more than 80 children through Pants and Sanitary Pads support.

We have noticed a lot of positive changes overtime. The school dropout and absenteeism for girls has been on the decline in communities we are serving. We are very much thrilled with the testimonies from children and guardians' who are the beneficiaries of this project. I Care so I Share continue extending hands to girls in need.

IMPORTANCE OF SCHOOL SUPPLIES SUPPORT

Orphans and the underprivileged children have been facing some difficulties in the educational arena due to lack of school supplies such as books, ballpoints, pencils, rulers, backpacks among others. We are delighted to have been able to support more than 100 children through school supplies.

We are noticing some positive changes in terms of declined school dropout rate, absenteeism and general performance in class as well as self perception and self esteem of beneficiaries. Children and the communities are excited with this project. Kindly journey with us as we witness God at work.

TOGETHER WE CAN !!!
