Website (Work In Progress)

Mission: We exist to make a difference in the lives of others, irrespective of their religion, race, or nationality through the mediums of Relief & Aid, Education & Skills Development, Advocacy, Community building, and Health Education.

Vision: To empower lives that are disproportionately affected by life circumstances, restoring dignity to the poor and destitute, and transforming communities that are disenfranchised and marginalized.

TOUCHING LIVES

DIRECTOR'S CORNER

Dr Mario Phillip –UK

Uganda orphans in need of sponsorship

Greetings to all of you our faithful partners!

God has been so faithful over the last year, we thank Him immensely for the many lives that have been touched through iCare so iShare International, made possible through your faithful donations.

iCare so iShare International continues to support following projects:

- ✚ A primary school of eighty-five students in Pakistan.
- ✚ Bible Distribution Project, Pakistan.
- ✚ iCare so iShare International Orphanage, India.
- ✚ Good Samaritan Relief and Aid to the lepers, blind and widows, India.
- ✚ A School for the deaf in Kenya.
- ✚ Young Dreams Project, Zimbabwe.
- ✚ Centre of Influence in Petite Martinique Grenada

Coming soon:

- Young Dreams Project, Uganda
- Young Dreams Project, Grenada

Why not adopt one of these as a missionary project? Let us do our part in spreading the everlasting Gospel to every nation.

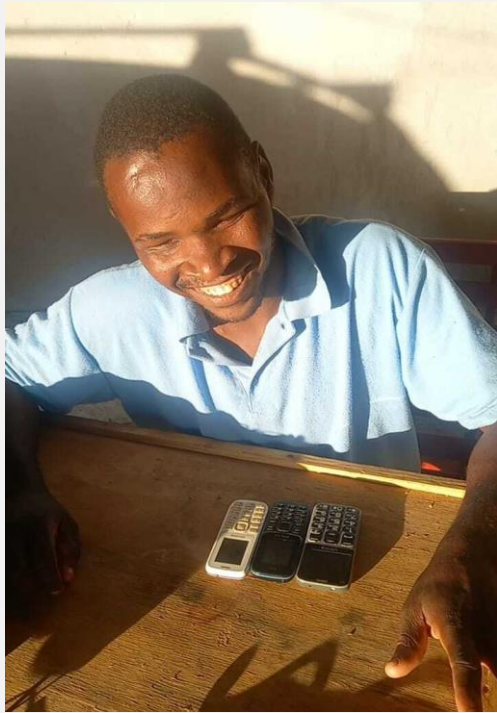

Your Chief Servant in Ministry,

Mario Phillip, PhD

James 1: 27 Religion that God our Father accepts as pure and faultless is this: to look after orphans and widows in their distress and to keep oneself from being polluted by the world.

Jamaica

Andre Bryan- plays music on his phone for the villagers

"Every Mickle Mek ah Mukle."

This is 26-year-old Andre Bryam of St Catherine Jamaica. Andre has been visually impaired from less than a year old. This was the result of a medical procedure going drastically wrong. Despite his challenge, Andre continues to surprise his friends and people around him with his ability to be self-sufficient. Andre lives independently, he proudly talks of keeping a clean home and cooking for himself. When asked how he manages he says he loves to experiment.

In 2012 whilst listening to the radio he decided he wanted to set up his own sound system and play music so as to earn a living. Currently, he uses his cell phone to play music for the village.

Andre also has a day job where he climbs trees another one of his experiences, he climbs a tree so that he can pick coconuts for a living, he describes using a rope to help him. If he had a laptop and better equipment he could do less climbing of trees and more playing out with his sound system. We are asking that you help us to help this talented young man who describes himself as ambitious, I tend to agree. He also plays dominoes by using touch to identify the numbers of the dominoes. We would like to support him by purchasing a laptop for the visually impaired. If you would like to be a part of making Andre's dream come true then please donate. Every Little help.. or as the saying goes "Every Mickle Mek ah Mukle."

Andre, visually impaired

Luke 14:13-14

...But when you give a feast, invite the poor, the crippled, the lame, the blind, and you will be blessed, because they cannot repay you. For you will be repaid at the resurrection of the just."

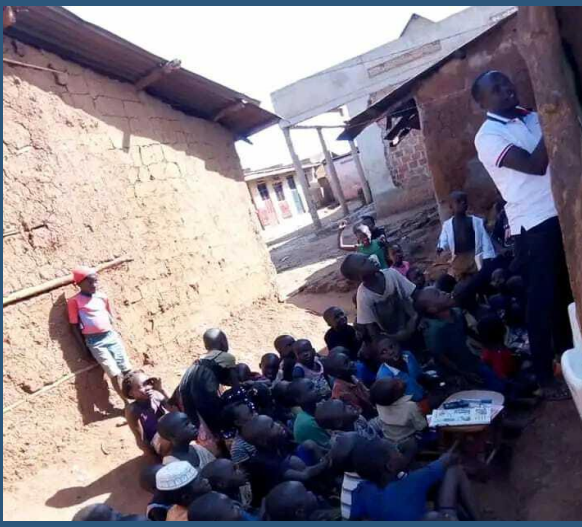

Uganda

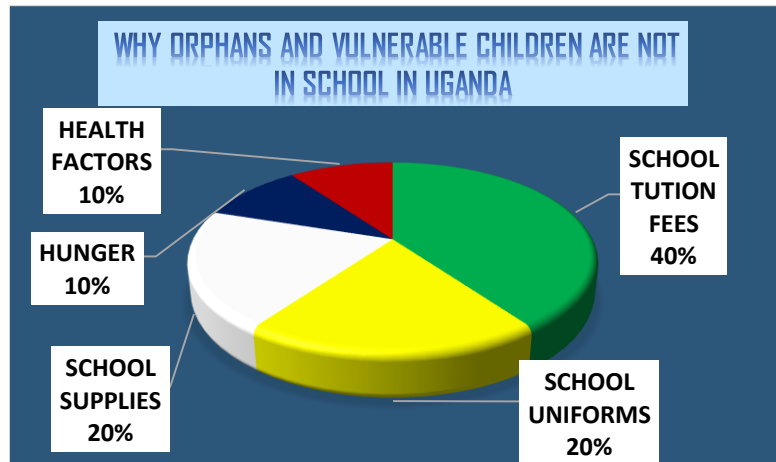

Young dreams project

The following pictures show orphans in Uganda who are looking for sponsors so they can continue their education.

According to UNICEF, over 2 million children in Uganda have become orphans in the past decade. The reasons for such high figures have been attributed to a number of dilemmas, including children born with HIV/AIDS or having an HIV/AIDS positive parent, and families facing financial difficulties. These children face multifaceted challenges in their lives including poverty, conflicts, poor health and lack of food, housing, sanitation, and education. At age 15, 18% of girls and 15% of boys are out of school. School participation is highest for girls at age 10 and for boys at age 11. The official primary school entry age in Uganda is age 6. At that age, 35% of girls and 43% of boys are out of school. Why not partner to send the young innocence to school?

Pakistan

PAKISTAN- SPECIAL FEATURE

Brishna, Principal of ICSIS Khanewal, Pakistan

My name is Brishna, I am 22 years old and serving as a Principal at iCare So iShare International School in Khanewal, Pakistan. When I first heard about the school from one of my colleagues, I didn't know anything else about it. I heard about the interviews on that same day. There, I heard about Seventh -Day Adventist for the first time. Then, I desired to learn more about it.

"We are sharing the message of God to the Community"

I appreciate the sincerity of the people with God. The Seventh Day Adventist Church keeps Sabbath as written in the Bible. Before joining this school, I had never thought about finding out the truth about Sabbath keeping as we are doing what our ancestors did and follow the traditions.

"A new generation will grow strong spiritually"

Khanewal is not just a school. It is a place where we interact with our community and through children, we are sharing the message of God to the community...

..continue... Also, children study in a Christ-centred School and grow strong spiritually. They learn different verses, songs and bible stories. Our community in Khanewal is spiritually weak as the people are illiterate. They cannot read the Bible and believe what they are preached. So, my dream is that every Christian that belongs here should receive true education. They will come closer to God and our new generation will grow strong spiritually and will become ambassadors of God.

We are grateful to iCare So iShare International Organisation for placing this school in Khanewal. I hope it will prove to be a great institution that will make a difference in the lives of people here.

Brishna's hope: Khanewal will make a difference.

Zimbabwe-Young Dreams Project

Christmas cheers for our sponsored children.

Love, Care, Share, Hope

Zimbabwe -Back to School-Young Dreams Project

Sponsored children

A tragic side effect has been a burgeoning orphan crisis. Current estimates place Zimbabwe's total orphan population at 1,000,000 of which 761,000 are believed to be a consequence of AIDS. Most of them do not go to school and some of them drop out due to variable reasons comprising; hunger, lack of school fees, school supplies, school uniform, neglect, and different forms of abuse. The orphans' psychosocial problems ranged from fear, lack of parental or guardian love, trauma, stress and frustration. The emotional and psychological problems faced by the orphans also put them at higher risk for juvenile delinquency. More than one quarter of children below the age of 18 are not living with either parent, as confirmed by the MICS 2021 figure of 26.6%. Among these children, the majority have been abandoned by their parents or orphaned.

iCare so iShare International is playing a pivotal role in resuscitating hope, rejuvenating dreams and being a very strong support systems to the orphans and vulnerable children in Zimbabwe. Educational empowerment is being unveiled to many, moreover, human rights advocacy and community development. There are still many more children whose hope and dreams are to be revived through support. One child at a time will make a huge difference, it lightens a child's smile and give the child a purpose in life and the reason to dream.

'Truly I tell you, whatever you did for one of the least of these brothers and sisters of mine, you did for me.' (Matt. 25:40 NIV)

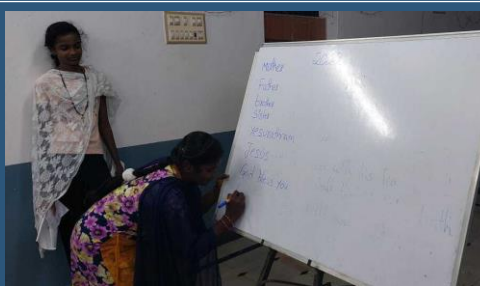

India

ICSIS Orphanage

We continue to support over thirty-five orphans in India with their educational needs and daily necessities.

Our sponsored children in India
