Country Coordinator's Corner

Alex Dewa (Country Coordinator)

We are grateful with the support visit from Villages of Life. By the grace of the Lord in the last few days our hope for the construction of a school was rejuvenated and quickened. Many children are not accessing education due to lack. Other children walk an average of 15 kilometres to access a basic need of education. We are thrilled and delighted with Ted, Grant and John as well as other board members for considering Zimbabwe. Thank you so much and God bless you all !

I CARE SO I SHARE – YOUNG DREAMS INT' SCHOOL PROJECT

THE YOUNG DREAMS PROJECT is oriented at witnessing a just world where all human rights are observed and practiced; where every human being enjoys life with its fullness. We are part of the movement for change on child treatment. Creating and fostering long-term solutions to the injustice of poverty; empowering orphans and vulnerable members to create a future that is secure, just, poverty free and where their voices are heard.

OUR VALUES— constitutes what guide us in achieving our goals. We serve children and vulnerable members of the society with exemplary treatment we wish to see around the world comprising;

RESPECT- due regard for the feelings, wishes, or rights of others

EMPOWERMENT —everyone engaged, from our human capital and supporters living in poverty, should feel they are the agents of transformation.

ACCOUNTABILITY-we take full responsibility for our actions and commit ourselves to the highest standards of integrity and we hold others fully accountable for their actions.

INCLUSIVENESS- we seek out partnership and embrace inclusive decision making. We believe everyone has a contribution to make, regardless of visible and invisible differences

The school construction is primarily aimed at expanding the orientation of Education and Skills Development. In line with the Sustainable development goals the school will ensure quality education, equality for all, the eradication of poverty in all its forms, zero tolerance to hunger by improved nutrition through hot meals, and promote sustainable agriculture, good Health and Well-being for all; ensuring healthy lives and promote well-being for the children and environmental user friendly resources utilization.

“All they asked was that we should continue to remember the poor, the very thing I had been eager to do all along” (Gal. 2:10).

VILLAGE OF LIFE IMPACT

Villages of Life's visit to our projects and school lands in Harare, Dzivaresekwa and Jomupani, Sanyati was very impactful. ICIS has big dreams for the children who cannot afford to access educational services due to economic hardships, lack, poverty and abuse by guardians or extended family members. Having Grant and John in our communities of Zimbabwe stirred our hearts and gave us the warmth. Children's smiles and laughter echoes sentiments of gratitude.

We are really grateful for the visitation of Villages of Life represented by Grant (Chairman) and John (Board member). We had fruitful discussions and site visitations. Our fellowship together was graced by the ICIS country representatives and board chairperson, community members, and valuable stakeholders.

Our interactions and fellowship were mainly focused on the possibility of collaboration efforts, allowing educational accessibility to less privileged children in both rural and urban areas.

Our shared vision, synchronization, and synergy with Villages of Life are incredible, and we look forward to witnessing lives being impacted through our combined efforts.

GRANT & JOHN IMPACT

Children are so much impacted by the Grant and John. They expected the pair to turn up on the next day of Children's club. They are always asking on when the pair will be coming back. God willing, we know that you will be with them again. It is amazing witnessing how God uses His people to impacting other peoples' lives. One child at a time, and one day we will be there. All for the glory of God. Building future leaders together
