MCI uses the data collected to provide, maintain, protect and improve the overall quality of its services. Data collection is also meant to protect MCI and its users. MCI does not collect more data than is necessary to fulfil such purposes.

In addition to creating Contact Profiles, MCI uses your data for the following purposes and for which you give your consent:

To make bookings, MCI might need to transfer personal data to various third-party travel suppliers (such as airlines, hotels, car rental companies, online booking tool companies, safety and security tracking providers and computer booking systems) within your home country or in another country where you may be traveling and often also to government bodies for certain destinations.
2. b) Consolidation of travel data: At the request of a Client, MCI or a third party may prepare information reports that summarize and analyse the expenditures per destination, per travel supplier, etc. Such reports which may include certain personal data from your Contact Profile are then submitted to the requesting Client.

4. d) New products and services: With the goal of improving services and based on the data given to MCI, MCI may send you additional information related to your current or future event(s) and/or trip(s). An example might be a list of restaurants near a specific hotel in the destination city or parking facilities at the departure airport.
5. e) Promotion and marketing: MCI may use your data to personalize your experience on the MCI website by presenting advertisements that are more relevant to you, to send you marketing communications that we believe may be of interest to you, including information about our services, case studies, thought leadership or whitepapers, blog updates, etc. For example, MCI uses third party service providers to present services and offers tailored to the preferences and interests demonstrated by your online activity over time. MCI may use your data for promotion and marketing purposes for MCI's current or prospective Clients and/or third parties in MCI's

industry. MCI may use the data to analyse trends in order to propose other services to its Clients, such as new events or other services.

6. f) Technical data: MCI, or third parties instructed by MCI, evaluate this data purely for statistical purposes and only in an anonymised form, in order to optimize MCI's website and increase user-friendliness, efficiency and safety. MCI may in particular use technical data to measure the success of MCI marketing campaigns, compile statistics about MCI website usage and response rates, and use aggregated personal data calculate the percentage of MCI users who have a particular telephone area code.
