

International Living Donor Liver Transplantation (iLDLT) Group Office  
4Fl., 10, Yeoksam-ro 7-gil, Gangnam-gu, Seoul, 06244, Korea

Brussels, 8<sup>th</sup> October 2020

Dear Members of the Council

We are delighted to invite you to organise the **International Congress of Living Donor Liver Transplantation Study Group** in October 2021 in Brussels.

As you know well, one of the reasons why so many international organisations choose to meet in Brussels is because of its central position – commercially, politically and geographically – right in the heart of Europe. Its accessibility by air, rail and road is highly developed. The city is compact and public transports are very easy to use to get around safely and quickly.

Policies are made and decisions are taken in Brussels. Not just by the European Union, NATO and the hundreds of other organisations that are located here, but also by the many international associations that have their headquarters in Brussels.

The city has been fortunate. Hosting the European institutions has helped us build a depth and quality of services that is difficult to find elsewhere. Brussels is an extremely well-equipped and experienced host city.

We feel sure that your choice of Brussels is the right one and we join the Brussels Convention Bureau in giving it our full support.

Yours sincerely,

Philippe Close  
Mayor of Brussels
