

GOUVERNEMENT DE LA RÉGION
DE BRUXELLES-CAPITALE
LE MINISTRE-PRÉSIDENT

The Brussels-Capital Region is honored to welcome the 5th International Living Donor Liver Transplantation Congress on October 15 and Saturday 16, 2021. During this two day meeting, the world's most renowned Western and Eastern leaders in the fields of liver transplantation and hepatobiliary surgery will gather in the capital of Europe.

Brussels is a unique host. Every day, key decisions that improve people's lives are taken in the capital of Europe. Brussels is the place where responses to global challenges in a multitude of policy areas are being negotiated and decided by leaders from Europe and all over the world.

The presence of a huge number of international organisations and agencies further contributes to this unique international ecosystem.

With its more than 180 different nationalities, its amazing cultural nightlife, its refined restaurants, its wonderful patrimony and its impressive contemporary art scene, Brussels is a vibrant place where everybody feels welcome and at home.

I hope that your stay in the heart of Europe will be rich in experiences, on a professional level of course, but also on a personal level.

Rudi Vervoort
Minister-President of the Brussels-Capital Region
