54-year old Ultra Marathon runner Mark Jacob, doesn't go a day without using his Clearlight Infrared Sauna.

"I've found the sauna helps enormously with healing and regeneration. Finishing a 100 mile race in 28 hours nonstop results in aches and pains from head to toe. Taking a sauna right after reduces the swelling and the pain in my muscles and joints. It loosens me up and speeds the healing so I can go right back to training."
