# Transformative forandringer

- Hvorfor transformative forandringer?
- Hvad er transformative forandringer?
- Kan vi anvende transformative forandringer i en dansk sammenhæng?

## Definition

“Fundamental system-wide reorganisation across technological, economic and social factors, including paradigms, goals and values needed for the conservation and sustainable use of biodiversity”

# Living in harmony with nature

a perspective on good quality of life based on the interdependence that exists among human beings, other living species and elements of nature. It implies that we should live peacefully alongside all other organisms even though we may need to exploit other organisms to some degree.

# We have lost 25% of all butterfly individuals on Earth

Fra Rahbek 2023

## DRIVERS

### INDIRECT DRIVERS

Values and behaviors

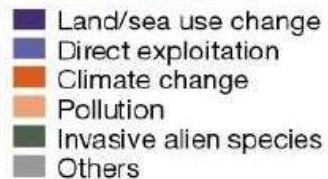

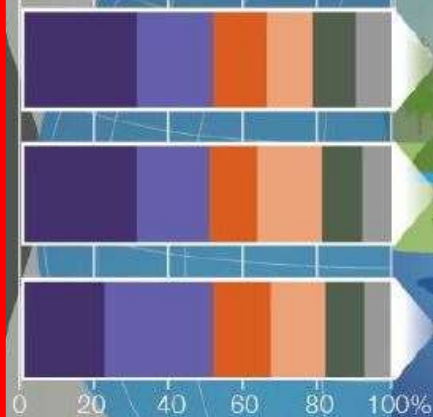

Demographic and sociocultural

Economic and technological

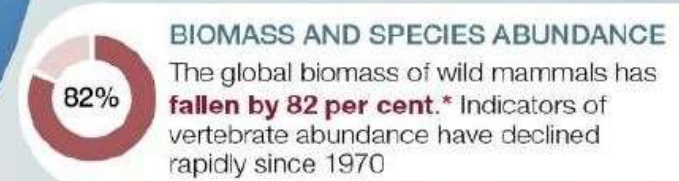

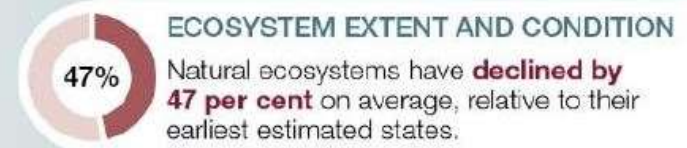

Institutions and governance

Conflicts and epidemics

### DIRECT DRIVERS

## EXAMPLES OF DECLINES IN NATURE

\* Since prehistory

# World Economic Forum, Davos

**The recent Global Risks Report of the World Economic Forum highlighted that climate change, extreme events and biodiversity loss are the three top threats facing humanity over the next ten years**

according to a survey of businesses, governments and civil society decision makers.

## Hvad er BNP?

Bruttonationalprodukt (BNP) er den samlede pengeværdi af produktionen i et land – f.eks. i løbet af et år – fratrukket udgifter til råvarer, som er brugt i den samme periode.

Øh ...  
transformative forandringer  
eller ... gennemgribende ...  
whatever ...!

# Transformative forandringer

## Mulige principper ...

### **Normative principles**

- commitment to equity and justice
- focus on pluralism and inclusion
- recognition of relational values and responsibilities

### **Process principles**

- pursuing change across views, structures, and practices
- pathways to scaling
- fostering evaluation, learning and adaptation

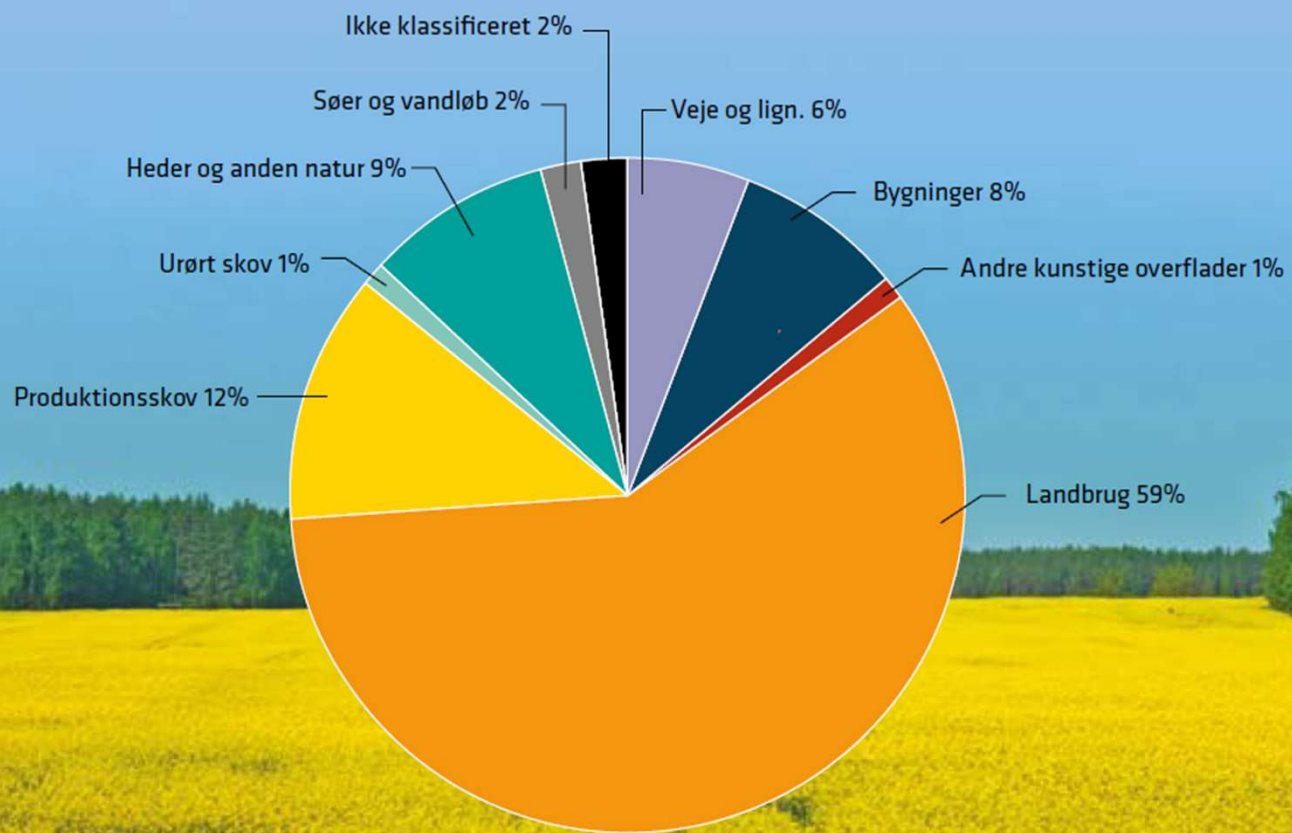

**[... alle principper nødvendige for at skabe transformative forandringer ift. at opnå 2050 visionen for biodiversitet...]**

# Transformativ potentiale?

Ikke alle forandringer er transformativ, men nogle har transformativ potentiale som kan blive forstærket og accelereret til significant større effekt.

En aktivitet, strategi eller initiativ med transformativ potentiale kan gå mod mere komplet engagement med de seks principper og på den måde bevæge sig fra dets transformativ potentiale til transformativ forandringer.

### Arealanvendelsen i Danmark 2021

# Genopretning af en højmose

**Der er mange veje til  
'living in harmony with  
nature', der er ikke kun  
en rute til transformative  
forandringer**
