IPBES global

IPBES Denmark

IPBES established 2012

150 countries involved

“The mission of IPBES is to strengthen the science-policy interface for biodiversity and ecosystem services for the conservation and sustainable use of biodiversity, long-term human well-being and sustainable development”

www.ipbes.net

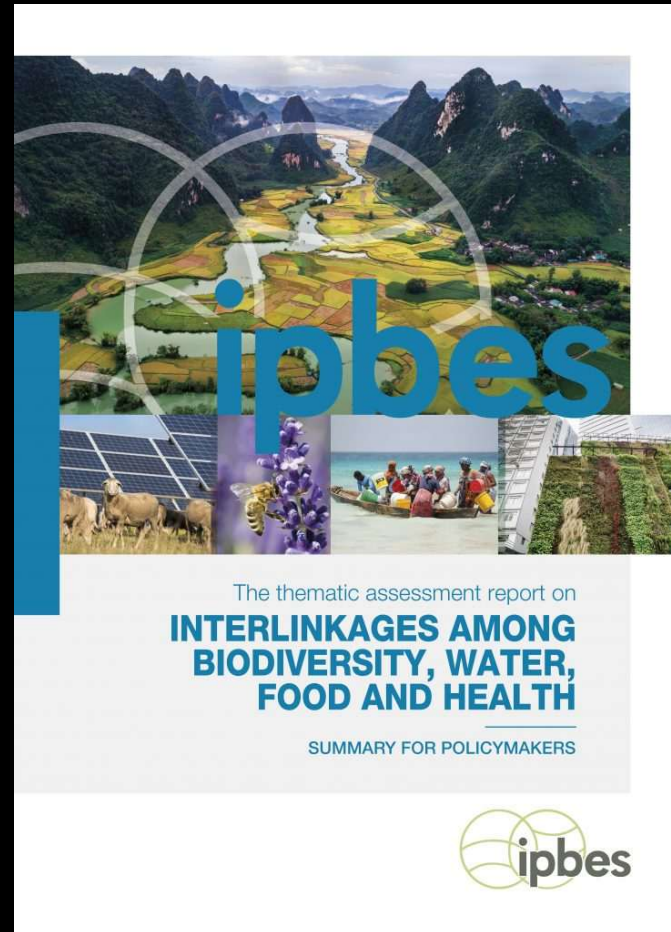

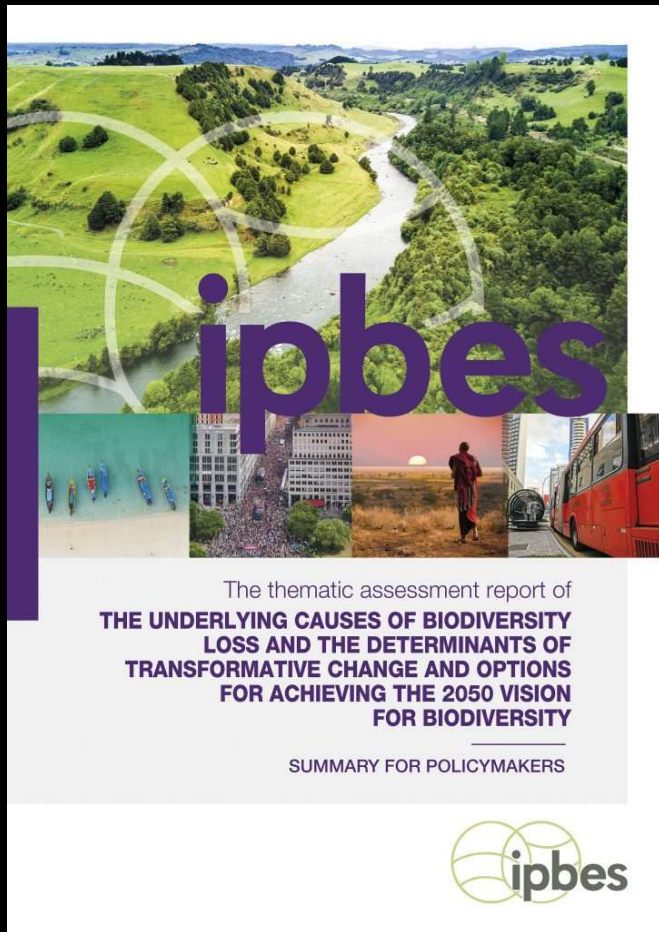

THE IPBES ASSESSMENT PROCESS

IPBES consensus reports

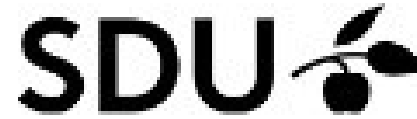

- IPBES deliver scientific consensus reports upon request from the member states
- IPBES prepare consensus reports across disciplinary boundaries
- IPBES designate 'option for actions'.
- All consensus reports are adopted unanimously by the member states.

> 2028 a 2nd Global Assessment

IPBES Denmark

Steering Committee

Expert Committee

Responsible towards university agreement, economy and strategic development
Recommend on experts for government nominations

IPBES ambassadors at the institutions
Advice and involvement

Three main aims:

Communication

Involvement

Raise funds for research

Communication

Hmm....
Transformative change???

Colourbox

Symposia to bring IPBES-themes on the agenda in Denmark

www.ipbes.dk/udgivelser-og-viden/symposier

Nature restoration on land, University of Aarhus, 2020

Climate change & biodiversity, Copenhagen, 2020

Biodiversity and economy, Southern Danish University, 2021

Land sharing versus land sparing, University of Aarhus, 2022

Biodiversity, values and relations, University of Copenhagen, 2023

Invasive alien species, University of Aarhus, 2023

How do we address the biodiversity crisis, cross-disciplinary symposium for biodiversity on land, 2025

Closer to transformative change in Denmark; Copenhagen Business School, NOW

Hvordan adresserer vi biodiversitetskrisen i Danmark? Tværdisciplinært symposium om biodiversitet på land

28. januar 2025 | Københavns Universitet

Symposium om biodiversitetskrisen i tværdisciplinære perspektiver afholdt i samarbejde med KU Green Solutions Centre.

Invasive arter. Fra globalt overblik til lokal bekæmpelse
