Join our Annual Meeting Live or Online via Livestream!

You can still register to join the INTEC meeting live but we are happy to announce that the whole meeting will also be live streamed. To receive a link for the livestream, you can visit the INTEC website or use the QR code above to register for the livestream. Also for members of the INTEC consortium that cannot make it to Münster, the work meeting which will discuss the activities for the next year can be followed online!

We hope to see you all in Münster or online and look forward to your active participation!

The First PhD Defense of an INTEC Consortium Member is Scheduled on September 25th !

Lukas Nollet will publicly defend his doctoral thesis 'On the phenotype and pathogenesis of ectopic calcification diseases using pseudoxanthoma elasticum as a model' on **September 25th at 6 PM CET**. His defense will be live-streamed. To receive the link for the livestream, you can register using the QR code below.

In the afternoon of **September 25th, at 3 PM CET**, Dr. Yvonne Nitschke - who is a member of the PhD defense jury of Lukas - will give a seminar on the treatment of soft tissue calcification. This seminar will also be live streamed. Scan the QR code below to register and receive the
