1.4 Safety warning

The following general safety precautions must be observed during all phases of operation, service and repair of this equipment. Failure to comply with these precautions or with specific warnings elsewhere in this manual violates safety standards of design, manufacture and intended use of the equipment. IWCS assumes no liability for the customer's failure to comply with these requirements.

- **FIRE**
In case of fire, harmful gases and fumes may occur. One should immediately leave the area and seek help. In case of suspected smoke in the lungs, a doctor should be consulted. 
- **POWER LOSS**
In the event of a power outage, Active Splitter will turn off and will automatically restart when power is restored. Power interruptions limited to the Active Splitter will not affect other users communication. IWCS is not responsible for any power outages or consequences thereof, of any kind. 
- **WARRANTY LIMITATIONS**
This unit is NOT a user serviceable unit and under no circumstances should the unit be opened except by authorized personnel. Unauthorized opening of the unit will invalidate the warranty. 
- **DISPOSAL**
When disposing of the Active Splitter and related equipment, it must happen in accordance with applicable national law.

Unboxing

2.1 In the box

1 x Active Splitter

1 x User Manual

3.1 Top Connector

3.2 Bottom Connectors

3.3 Volume Controls

4.1 Usage

Insert the Active Splitter into the download cable from your CAP (Communication Access Panel).

Insert your headsets into the designated ports at the bottom of the Active Splitter. Ensure that you connect the headsets according to your specific configurations.

Adjust the volume controls on the Active Splitter for each connected headset individually.

Please note that the master volume is controlled on your CAP (Communication Access Panel). The volume settings on the Active Splitter are dependent on the volume level set on your CAP. Adjusting the volume on the CAP will directly affect the maximum volume output of the Active Splitter. Make sure to set the desired volume level on your CAP for optimal audio experience.

The onboard ICS (Intercom System) must provide full sidetone to enable duplex intercom between port 1 and port 2 on the Active Splitter.

5.3 Serial Number

6.1 Measurements

6.2 Specifications

Specifications	Active Splitter
Weight	195 g
Temperature Range	-15 to + 55 degrees Celsius
Supply Voltage	28 VDC nominal
Power Consumption	1W (excl. headsets)
Gain Range	x - y dB
Connectors	TP108 / TJ108

7.1 Maintenance

Please refrain from using chemicals or solvents to clean your Active Splitter.

To clean the Active Splitter, use a small brush or a toothbrush to gently remove any dust or debris around the volume adjusters and connectors. Regular cleaning will help maintain optimal performance and ensure longevity.

Avoid applying excessive pressure, friction or using sharp objects on the product, as these can cause damage and potentially void the warranty. Additionally, if the Active Splitter remains unused for an extended period, it is advisable to disconnect it from other equipment.

7.2 Troubleshoot

Problem	Cause	Action
No sound in headset.	Wrong slot input.	Make sure your headset is put into the correct input.
No sound from headset.	Wrong slot input.	Make sure your headset is put into the correct input.
No sound from headset.	Wrong config. No power supplied to Active Splitter.	Check config.
