

## News - week 7

The first workshop is approaching. It will have an open session that is available for all and free. Read about some of it in the post below. Another topic this week is skilling. At the first open forum we discussed that and ways to tackle.

### Open session at 1st workshop

The open session is shared data and digitalization for future value creation. One presentation will discuss synergy of technology and smart specialisation strategy. [Read more](#)

### Open Forum

From time to time we will have open forum. Meaning that you can join and discuss. Or bring a question and maybe find out the answer or who to contact. The important is to meet and interact. That creates ideas and opportunities. [Read more](#)

## Strategic leadership and career

This is an open meeting at which we will discuss how to position for research leadership and career.

## Grant for SME in green transition

Funding for SME in advanced materials or advanced manufacturing or photonics for training/service: (i) Technical, economic, and environmental assessments; (ii)

Development of green business models. This is actually what open session is about, and an SME can have more detailed knowledge by the grant from the presenters.
