1 WELCOME TO LATVIA

1.1 ADDRESS OF MINISTER FOR EDUCATION AND SCIENCE OF THE REPUBLIC OF LATVIA

Many years of hard work have resulted in the organisation of the FIA World Rally Championship round in Latvia that will take place already this summer and will allow sports fans and competitors to experience this exciting event. I am truly proud that we can organise such a major event in Latvia, hosting several tens of thousands of foreign guests.

I highly value the fact that in Latvia, through persistent work, we have gained extensive experience in organising international events, starting from small competitions, and now ascending to the global stage of the FIA World Rally Championship. This ambitious event will cover half of the territory of Latvia, giving the opportunity for as many people as possible to enjoy this sports festival and showing that Latvia is not only its capital Riga.

In a rally, the crew who completes the speed stage the fastest is the winner - sounds very simple. Exciting race, where athletes compete for several days, driving at speeds even over 150 km/h. However, this motorsport is not just about the speed, adrenaline, and beautiful cars, it is also about top teamwork. Rally is also the only motor sport discipline where there are two people sitting in the car – two people who share mutual trust at the highest level. The rally-car driver relies solely on the co-driver's directions, but the co-driver puts all his trust in the driver and believes that the destination will be reached together.

I wish Latvian rally drivers to achieve their next dream – be among the best in the world and one day represent one of the manufacturer teams! Keeping my fingers crossed! Have a great motorsport holiday!

Anda Čakša

Minister of Education and Science of the Republic of Latvia

1.2 ADDRESS OF PRESIDENT OF LATVIAN AUTOMOBILE FEDERATION

The Latvian Automobile Federation is proud that, after organising the FIA World Rallycross Championship and the FIA European Rally Championship rounds, team of RA EVENTS has taken an enormous step forward and brought the FIA World Rally Championship (WRC) to Latvia.

Although Latvia itself does not yet have its own full-time WRC driver, over the past 15 years the Latvian Automobile Federation has created an opportunity for many rally drivers to start their careers in Latvia at a young age (with special permits already from the age of 14). More than 50 foreign youngsters have taken their first steps in rallying and honed their skills in competitions held across Latvia. Among them are two-time WRC champion Kalle Rovanperä and European vice-champion Oliver Solberg, who drove their first rally competitions in Latvia and won their first championship titles here as well. The Latvian Automobile Federation will continue to give young drivers the opportunity to develop their rally skills, and who knows, maybe in the future you will see more World champions, who will have taken their first steps in Latvia.

We wish all the competitors a successful rally and for the spectators an exciting event, where you will enjoy the competition as well as the beautiful nature of Latvia!

We wish all the competitors a successful rally and for the spectators an exciting event, where you will enjoy the competition as well as the beautiful nature of Latvia!

Raimonds Kisiels

President of the Latvian Automobile Federation

1.3 ADDRESS OF DIRECTOR OF TET RALLY LATVIA

Welcome to Latvia! Welcome to 37th country to ever host a round of the FIA World Rally Championship. And welcome to the 2024 *Tet Rally Latvia*, our inaugural WRC event and Round 8 of the 2024 WRC Calendar.

A historic summer is approaching, providing new memories and experiences for the vast family of WRC. With the high-speed gravel-surfaced special stages on plate, some courage will be required from the competitors, to fight for the coveted first victory, at the same time, producing some unforgettable moments for the rest of us watching. Being this our debut event, we looked for the best way to introduce the FIA World Rally Championship to as much people in Latvia as possible. And so, we opted for the most widespread rally we have ever organised – making way to meet the spectators, and giving way to challenge the most picturesque special stages around Latvia.

The rally week is set to start with the official test sessions organised on Saturday, July 13, and Sunday, July 14, in Talsi region. Be informed, there will also be options for private test sessions upon request. Rally HQ will be situated in our beloved rally city Liepāja, on the shore of the Baltic Sea. With equally picturesque location for our service park – just a shy walk away from the sea side.

Reconnaissance is scheduled to start on Monday, and cover special stages in our capital city Rīga and Tukums region. Tuesday should give the first glimpse of special stages in regions of Talsi, Kuldīga and Dienvidkurzeme. The reconnaissance will conclude on Wednesday afternoon, giving competitors the required time to get acquainted with the remaining special stages in Dienvidkurzeme region.

The final phase of the *Tet Rally Latvia* will commence on Thursday, July 18, with early morning run shakedown. After a short break at the service park, the competitors will then travel to Riga for the opening ceremony and the very first super special stage, with an overnight parc fermé in our capital city to conclude the day. The action will resume on Friday, July 19, with special stages around regions of Tukums and Talsi. With no midday service, crews will have an extra set of challenges to deal with, but have no doubt, every second will count anyways. The crews shall return to rally city Liepāja on Friday evening for evening visit to service park. Saturday, July 20, is set have equally fast-paced special stages around regions of Kuldīga, Dienvidkurzeme, and rally city Liepāja to distribute the first championship points at the end of the day. Finally, Sunday, July 21, will resolve all the remaining questions, and give spectators a unique experience to wrap up the event. In total, *Tet Rally Latvia* is set to have 20 special stages and over 300km in special stages before deciding first ever winner of Latvian round of the FIA World Rally Championship.

And while we often get drawn away by the spectacle of rally crews, we must make sure the longevity of the event. The work never stops to protect the environment and establish a sustainable *Tet Rally Latvia* and thus it is our goal to acquire Two-Star rating ahead of our World Championship debut. With that in mind, we pledge everyone to set environmental objectives that are SMART: specific, measurable, achievable, relevant, and time-bound, while engaging in actions towards circularity: sharing, reusing, and recycling as much as possible.

Let us have fun, and enjoy the first edition of *Tet Rally Latvia*!

Raimonds Strokšs, RA Events director

ENVIRONMENTAL POLICY

For the first time in the 51-years-long history of the FIA World Rally Championship a round in Latvia will be organised in July 2024, making Latvia only the 37th hosting country of such honour. Latvian round of the world championship *Tet Rally Latvia* is organised by *RA Events* – a company with more than 15 years of experience in the motorsports – always looking into each and every detail and nuance, and always pushing to achieve the highest quality of the event organised. *RA Events* is keen to learn and adjust its operations to reach the exceptional level to set the example of good practice – nationally and internationally, within motorsports industry and for other events as well.

Climate change is accelerating. Plastic particles are found everywhere, even in our bodies. Biodiversity is collapsing. It is a man-made chaos. And it is up to a man to fix it. But fixing does not mean the closure of everything. Fixing means living and working smarter.

RA Events has set the overall aim to reduce the negative impact on the environment. To make it work, the specific objectives must be SMART: specific, measurable, achievable, relevant, and time-bound. *RA Events* has started and continues its operations to minimize CO₂ emissions and created amount of waste. To achieve these targets, *RA Events* is heading towards circularity: sharing, reusing, and recycling as much as possible.

***RA Events* green education starts within the company and it stretches further out to:**

- Competitors – who are informed what kind of behaviour is expected from them to ensure that the event minimises its negative impact on environment – when traveling to and from Latvia, as well as when going around our country;
- Spectators – the largest group of our stakeholders – we encourage people to make environmentally friendly choices; thus, we also provide tools spectators can use for this purpose, as well as we communicate and remind the spectators about these choices time and time again;
- Officials – we make sure that we all have understood the environmental rules and regulations correctly and we act in accordance with them;
- Media – we provide tools to media to make sure that they want to talk about the impact of motorsports on environment and how to decrease it, they have reliable data and good initiatives to showcase. Media is the strong and trustable loudhailer to spread those messages out to audiences;
- Partners – we create the value to our partners without making too much non-essential items;
- Suppliers – we are predominantly choosing environmentally friendly product or service solutions, if our suppliers have such. If they do not – we let them know that we will need them next time.

Tet Rally Latvia environmental policy is communicated to all the parties involved in this event, including information published on the website and social media accounts, documents, and materials, as well as it is communicated to all our staff and management in the Event's Operating plan, during briefings and seminars, and via internal communication.

***Tet Rally Latvia* environmental policy is to be reviewed once a year.**

We have a choice, and today we choose a sustainable future.

5.3.3 Electricity

The competitors will be given an option to request an extra service of 1-phase or 3-phase electricity outlet. Competitors shall have their own electrical cables 80 meters in length to connect to an electric switchboard. 1000 EUR fine will be issued for making an unauthorised connection to the electric switchboard.

The service fees shall be published alongside the publication of the Supplementary Regulations.

5.4 ENVIRONMENTAL REQUIREMENTS

Clean Venue Policy is employed by the rally organiser and we ask the corresponding level of cooperation from all competing crews of the *Tet Rally Latvia*. Leave your service area in a condition you have received it – move all trash, un-needed car parts, oil, and used tires to containers / space especially envisioned for that purpose.

Be informed that there will be sortable waste containers, as well as containers / space for rally car related waste at the service park. Please get familiar with all the options upon arrival, and, upon our encouragement, make necessary adjustments at your team's facility.

6 TWO-WAY RADIO

6.1 APPLICATION PROCEDURE

Competitors must reach out to the Electronic Communications Office of Latvia and apply for temporary use of radio frequencies. Please see information in the appendix of this document:

- Appendix 3 – Guidelines for the radio-frequency spectrum use (guidelines)

13.7 ROAD RULES

- Observe local specific rules and specially speed limits.
- Speed Limits: city 50km/h, highway 90km/h (tarmac roads) and 80km/h (gravel roads).
- Speed cameras might be (and are) in use.
- Congestion charges are applicable when driving into the city of Jūrmala.
- Driver and all passengers, in front and in back, must always wear their seat belts.
- Vehicle lights must be on all the time throughout the year / 24 hours a day.
- Using or holding a mobile phone in your hand while driving is prohibited.
- To avoid parking fines, park only where it is permitted, or double check to make a payment.
- The Police can perform breathalyser tests of drivers. The maximum permitted level of alcohol in the bloodstream is 0,05%, for drivers with less than two years of drivers experience 0,02%.

13.8 VIGNETTE

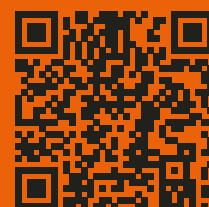

Please be informed, any vehicle over 3000kg curb weight is required to pay road usage charge. These vignettes can be acquired in local gas stations, as well as online: <https://www.lv vignette.eu/>.

Special road side cameras are employed to check the validity status of vignette for any vehicle.

13.9 CAR RENTAL

Official car rental partner *SIXT* has provided a special offer for all the competitors of *Tet Rally Latvia*, providing a great discount of 15% for cars rented in the Baltic States.

Internet: www.sixt.lv/wrc

14 IMPORTANT INFORMATION TO COMPETITORS

14.1 TRANSPORTATION OF RALLY CARS TO OPENING CEREMONY (TCO)

Tet Rally Latvia competitors will have an optional service of transportation for their competition cars from rally city Liepāja to opening ceremony (TCO), located in Rīga. The service is provided by a company *Kurbads*, having vast experience in car transportation, including 2019-2023 *Tet Rally Liepāja*, as well as 2019 and 2022 FIA World Rallycross Championship event in Rīga, when 600hp Supercar/RX1e vehicles were transported.

The service fees shall be published alongside the publication of the Supplementary Regulations.

14.2 EVENT PASS

Dear competitors of *Tet Rally Latvia*, please inform your team members that a corresponding team pass / wristband issued by the championship promoter or event organiser must be always worn.

14.3 TEST SESSIONS

The amount and capacity of both test sessions – group and private, is limited – please be advised to act timely to secure your test session.

14.3.1 Group test session

There will be official test sessions organised for the convenience of competitors of *Tet Rally Latvia*. Two test sessions are planned – one on Saturday, July 13, and one on Sunday, July 14. Both test sessions should take place in Talsi region, and be run with up to 10 cars each.

Further information, test road map, and costs should be published on our website www.lvrally.com.

14.3.2 Private test session

Upon request, a closed/private test session can also be arranged. The request, including running date and length of the desired stage, must be sent to rally@raevents.lv no later than 18 June 2024.

14.4 SPEEDING

Dear competitors, please note that from the moment when the crew has received GPS equipment until the GPS equipment will be returned, the speed at which the crew drives on the public roads will be monitored continuously – including reconnaissance, as well as while driving on liaison routes. We urge you to respect the locals and strictly follow speed limits.

For successful running of the event, speeding will be monitored constantly and, while this is not the intention, Clerk of the Course will be forced to issue fines to crews not obeying set speed limits in accordance with the supplementary regulations of the *Tet Rally Latvia*.

In the event the competitor during the rally is stopped by Latvian State Police and requires assistance, please contact the Competitors Relations Officer immediately.

**Scout

style**

Come and meet us at
Tet Rally Latvia
18-21 of July

Darziema iela 60, Rīga, Latvia
M: +37128318444
fristads.com

14.5 AUXILIARY SERVICE LOCATION

In case your crew experiences an accident during the opening super special stage in Rīga, and subsequently requires an unplanned service to prepare the car for restart on Friday, July 19, crews of Tet Rally Latvia are provided an opportunity to use the facilities of *Sports Racing Technologies*, in the territory of *Biķernieki Track*.

In case a crew is required, please, contact representative of the *Tet Rally Latvia*.

Mr. Kristaps Ušvils

Phone: +371 2626 6654

E-mail: kristaps@raevents.lv

15 MARKETING

If you are interested to provide services or carry out any other activities at the service park, it must be approved by organisers of *Tet Rally Latvia*. Please address all your questions and / or requests to rally@raevents.lv until 31 May 2024. In case unauthorised marketing, promotional, or other activities will be detected in the service park, rally organiser will issue a monetary fine in amount starting with 3000 EUR.

16 RĪGA

16.1 MUST SEE LOCATION IN RĪGA

Riga Motor Museum, located a few kilometres from Riga city centre, and just next to *Biķernieki Track*, houses the largest and most diverse collection of antique vehicles in the Baltic states and offers a truly interactive, fun, and educating journey into the world of motors. The museum is considered as one of the most remarkable museums in Latvia. It is the largest and the most modern museum of historic vehicles not only in Latvia, but across the Baltic States, and for warmth of our gasoline-run hearts, displays a very special vehicle – the 1930s mountain-racing automobile *Auto Union V16*.

16.2 FOOD OR DRINK TO ENJOY

Riga Black Balsam, whose origin dates to at least 1752, is an iconic symbol of Rīga and Latvia. It is made from 24, mostly different herbs. With its unique and slightly bitter taste, *Riga Black Balsam* has become popular among both local and international tourists. And do not give up so easily, if you do not like the classic flavoured balsams, you should try the blackcurrant flavoured edition.

16.3 LOCATION FOR #INSTASPOT

Āgenskalns Market. Internet: [HERE](#).

16.4 LOCATION TO OVERSEE THE CITY

St. Peter's Church is the highest church in Rīga, as well as a remarkable 13th century Gothic style architectural monument of national importance. The tower of St. Peter's Church gives you a breathtaking view of the Rīga city panorama – medieval and modern Rīga, the Daugava River with the wide harbour and the Gulf of Riga.

16.5 HOW IS RĪGA REMARKABLE IN THE EYES OF OTHERS

About 40% of the entire construction of the centre of Rīga is made up of Art Nouveau buildings. This is much more than any other city in the world. Albert iela is the pearl of Rīga's Art Nouveau style – these magnificent and historic buildings are located along its entire length.

16.6 SOUVENIR TO TAKE WITH YOU

Most certainly, souvenirs that depict a rooster often called the golden guards of Riga. Wooden and metal roosters have adorned the roofs of Riga houses since the end of the XIII century. The rooster of St. Peter's Church rose higher than other tribesmen. From a height of 123 meters, it has a clear view of what is happening both in the city centre and in its surroundings. His predecessor was placed on the spire of the tower as far back as 1491.

16.7 FACT, NOT EVERYONE MIGHT KNOW ABOUT

Before the First World War, at the most prominent restaurants of Rīga you could buy a postcard with an interior view of the establishment and send it right from your table. Then famous restaurant *Otto Schwarz* had ordered a set of six luxurious, colourful postcards printed in Paris.

Unwind in Riga!

From quintessential Old Town experiences, savouring history and Michelin-starred dining, to dancing the night away or having deep conversations till daybreak in creative districts – Riga has it all.

RIGA

liveriga.com

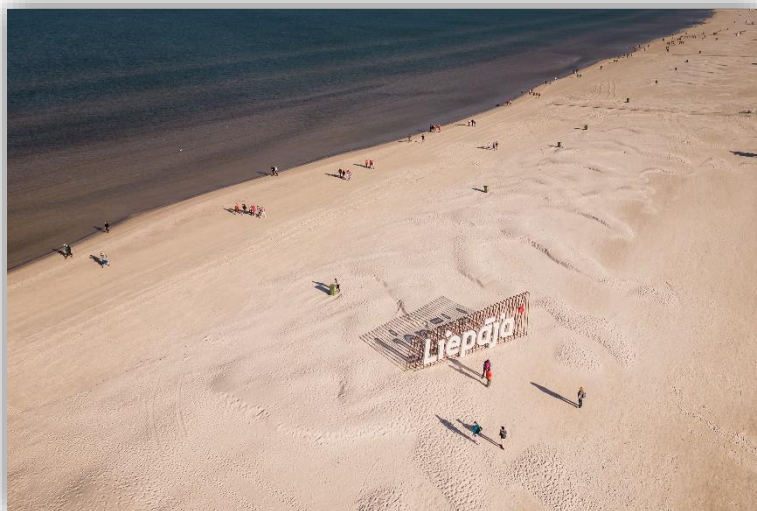

17 LIEPĀJA

17.1 MUST SEE LOCATION IN LIEPĀJA

There are several locations for tourists not to be missed, and those include Liepāja's beachside and *Jūrmala Park*, *Guest House of Mrs. Hoijere*, now home of the Museum of interior design of 17th-19th century, and nonetheless, concert hall *Great Amber*.

17.2 FOOD OR DRINK TO ENJOY

Liepāja is an historic fishing village, so we recommend you to taste the freshly caught fish in local restaurants and cafes. Besides that, there are local breweries in Liepāja and an excellent winery in the Dienvidkurzeme region – products of all of which, can and should be tasted in local restaurants and cafes.

17.3 LOCATION FOR #INSTASPOT

It is up to you to choose between landmark letters of LIEPĀJA on the beach or North pier (right next to the Service Park) of Liepāja's port.

17.4 LOCATION TO OVERSEE THE CITY

Viewing tower of St. Trinity Cathedral that stands 55m above ground.

17.5 HOW IS LIEPĀJA REMARKABLE IN THE EYES OF OTHERS

Liepāja is known thanks to its local, but now global stars of sports – Kristaps Porziņģis, an *NBA* basketball player for *Boston Celtics* and Anastasija Sevastova, a tennis player, who has ranked Top20 in the *WTA* ratings. Factory building of *Lauma Fabrics*, by its total area, ranks amongst the ten largest buildings in the world. While, St. Trinity Cathedral houses the largest mechanical (in its original state) organ in the world.

17.6 SOUVENIR TO TAKE WITH YOU

Without any doubt, amber – either found on the beach, or in the House of Craftsmen.

17.7 FACT, NOT EVERYONE MIGHT KNOW ABOUT

Liepāja is elected to be European Capital of Culture in 2027.

Liepāja

**All events together:
events.liepaja.lv**

18 TUKUMS

18.1 MUST SEE LOCATION IN TUKUMS

The old town of Tukums acquired its planning already in the 14th – 18th centuries, but its visual image, so characteristic to modern Tukums, has been formed in the 19th century and the beginning of the 20th century. There are many old, minorly rebuilt workshops and residential buildings built in the style of a log house. It is interesting that already in a photograph from 1900s it is recorded that wooden boxes with flowers were placed near the windows. The citizens of the old town continue this tradition even in the 21st century.

18.2 FOOD OR DRINK TO ENJOY

The special dish of Tukuma – meat main course "Tukuma veltnītis" that is served with cherry sauce, and can be found at bar *Smukausis* or cafeteria *Apsīte*. If you look closely, you can also find medieval style meals in *Jaunpils Palace*. There you will also find the special drink is "Tukuma rose cocktail". Meanwhile, wine lovers are all invited to visit *Abava* winery for tasting and shopping.

18.3 LOCATION FOR #INSTASPOT

Landmark letters TUKUMS in Brīvības Square – in the heart of the city, a chance to catch the vibe of Tukums, which many are talking about and looking for. As Tukums is already known as a destination for castles and manors, *Durbe Palace* is one of the pearls of the Tukums region – one of the most luxurious classicist style palaces in Kurzeme, which managed to withstand the destruction during the Soviet era, as hospital and sanatorium were both located in the palace during that time.

18.4 LOCATION TO OVERSEE THE CITY

The city's greenery and patterned roofs can best be seen from the observation tower of the Tukuma Lutheran Church. The tower allows for remarkable sights on all four sides of the sky.

18.5 HOW IS TUKUMS REMARKABLE IN THE EYES OF OTHERS

Tukums is known as the City of Roses. During the *Rose Festival*, the largest wreath of rose flowers is made. In 2023, the pink wreath was made up of 10,143 larger and smaller rose flowers.

18.6 SOUVENIR TO TAKE WITH YOU

A rose – a real rose to plant in your garden, or a porcelain rose as a pendant, brooch, or earrings for a woman you love or a lapel pin for a man. If you do not like jewellery, then a rose magnet next to the refrigerator will always be a wonderful reminder of your visit to Tukums.

18.7 FACT, NOT EVERYONE MIGHT KNOW ABOUT

The largest tree in Latvia and the Baltics grows in the Tukuma region – the *Kaives Senču* oak, which can be seen in Sēme parish. Its total circumference is 10.6 meters.

July 18–21, 2024

Traverse Tukums challenging roads to serene castles or the lively Tukums Town Festival for well-earned rest or vibrant partying!

19 TALSĪ

19.1 MUST SEE LOCATIONS IN TALSĪ

There are many exciting places to see and get to know around Talsi! Valuable natural areas – Slīteres National Park, Talsi hillocks, Abava River Valley, and nature parks of Lake Engure.

Talsi is region with the longest coastal border – more than 90 km by the Gulf of Riga and the Baltic Sea, or as the locals say – *mazjūr's* (little sea) and *dižjūr's* (great sea). Kolkasrags is unique in its nature, where the two seas meet, forming a truly fascinating cross-wave scene, and the Libyan coast with its historic villages begins. Building complex of cultural and historical pearl *Nurmuiža*, Valdgale mill, Dundaga castle. Sabile and Valdemārpils are proud of their historical buildings and each place has its own special small-town charm.

19.2 FOOD OR DRINK TO ENJOY

When in Talsi, be sure to reward yourself with a cheese-based treat of “Talsu ritulis” or “Deviņkalnu siers”! And do not forget that Talsi has its own special dishes – Talsi cream and Talsi schnitzel. Look for them in cafes.

19.3 LOCATION FOR #INSTASPOT

Landmark object “Nine Hats” in Kēniņkalns, the barcode stairs next to the Talsi Culture Centre and the sign TALSĪ in Sauleskalns would make for perfect pictures to capture and share.

19.4 LOCATION TO OVERSEE THE CITY

The most beautiful views of the city can be seen from the Talsi castle hill, promenade of Lake Talsi, as well as the landmark object *Frame Talsi* located in Kēniņkalns.

19.5 SOUVENIR TO TAKE WITH YOU

Anything with the local barcode of “Talsu brunči” – a stylized pattern of a traditional women’s skirts, will make the best of it.

19.6 FACT, NOT EVERYONE MIGHT KNOW ABOUT

During the first years of independence of Latvia (mid-war period of the 20th century), the road leading from Laidze street to Vilkmuižas hill was called by a very original name – Vilkpiena street (Wolf’s Milk Street). Now it is Friendship Street.

TALSI' COLOURS = LADIES' SKIRTS & RALLY FLAGS

TALSI

20 KULDĪGA

20.1 MUST SEE LOCATION IN KULDĪGA

Kuldīga observation tower, Venta waterfall, *Strauss un kaza* Farm in Snēpele.

20.2 FOOD OR DRINK TO ENJOY

Celma bread, national *Suitu* pastry named “sklandrausis”, beer and lemonade produced in Kuldīga located brewery *Duna*, as well as kombucha.

20.3 LOCATION FOR #INSTASPOT

The doors and windows of the old houses of Kuldīga Old Town, which are now included in the UNESCO World Heritage List.

20.4 LOCATION TO OVERSEE THE CITY

From the new built Kuldīga observation tower.

20.5 HOW IS KULDĪGA REMARKABLE IN THE EYES OF OTHERS

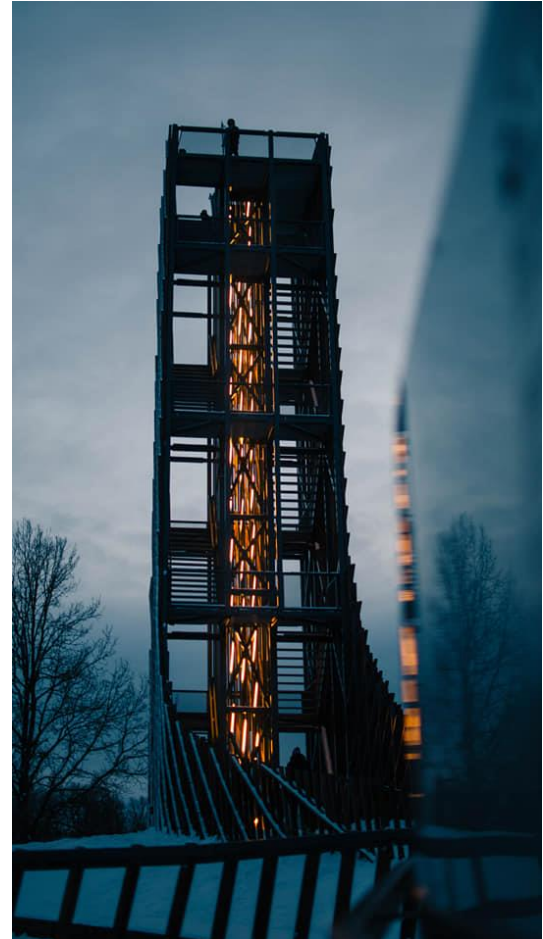

The old town of Kuldīga is a UNESCO world heritage site, Venta waterfall – the widest waterfall in Europe (249m), meanwhile Alekšupīte waterfall – the highest waterfall in the Baltics (4.18m).

20.6 SOUVENIR TO TAKE WITH YOU

Curonia Coffee roasters, Rudy's Kombucha, "Garīkas" shiitake, wines from *Kabile Manor*.

20.7 FACT, NOT EVERYONE MIGHT KNOW ABOUT

Did you know that there are no traffic lights in Kuldīga, and (which is even better) – we have fish that fly around Venta waterfall!

*Kuldīga Old Town -
Unesco World
Heritage Pearl*

This picturesque small town with a well-preserved historic centre is a well-kept secret, a UNESCO World Heritage Site since 2023. The town takes pride not only the majestic bridge over the River Venta, one of the longest arched brick bridges in Europe, but also the 249-metre-wide Venta Waterfall, known as the widest natural waterfall in Europe.

GUIDELINES FOR THE RADIO-FREQUENCY SPECTRUM USE

DURING MAJOR SPECIAL EVENTS IN LATVIA

Every year, major sports, culture and entertainment events take place in Latvia. During such events radio-frequency spectrum is used intensively and widely in order to ensure their successful process.

Several hundred wireless devices during major events are used for the provision of communication between event organizers, for the control of special effects, the event process reflection in mass media and for other purposes.

Considering the wide application of wireless equipment, it is essential to make sure timely – before the event, about your radio equipment use conditions, in order to avoid situations, when there may occur radio communication interferences for the radio equipment operation of both - your own and other radio frequency spectrum users.

This informative material is intended for public major special event organizers and/or their representatives, who are planning the use of radio communication equipment in Latvia for the purposes to provide the process of abovementioned events.

This informative material includes important information, which applies to radio equipment check before its use.

WHAT MUST BE OBSERVED FOR THE RADIO FREQUENCY SPECTRUM USE IN LATVIA?

In accordance with the legislation of Latvia (see Clause 50 of the Law on the Electronic Communications), the radio frequency spectrum usage for radio equipment operation is permitted:

- If there is an individual radio frequency assignment, issued by Electronic Communications Office (hereinafter – **INDIVIDUAL LICENCE**)

or

- If radio equipment operates in accordance with the licence for the shared radio frequency assignment use (hereinafter – **SHARED LICENCE**) according to the procedure stated in the Cabinet Regulations.

INDIVIDUAL LICENCE – is a licence, issued to a particular user, which gives the right to use frequency/-ies with the provided parameters. According to the legislation of Latvia, this licence is issued by Electronic Communications Office of Latvia for a particular term. It is also possible to issue short-term licence for one day.

During major events, most commonly used radio equipment, which operates based on the individual licence – portable radios for voice radio communications (working in 146 - 174 MHz and 406.2 – 470 MHz radio frequency bands), wireless microphones and in-ear monitors, video signal transmission radio links.

SHARED LICENCE – gives the right to use the radio equipment, which belongs to the radio equipment groups, provided in Annex No.3 of “National Radio Frequency Plan” (Cabinet Regulations No.1151 from October 6, 2009), and operates in particular shared radio frequency bands or channels, in compliance with technical requirements, conditions and restrictions for radio frequency spectrum use. The Shared licence for radio frequency spectrum users is not being issued individually in paper or in electronic form.

The most commonly used radio equipment, which operates based on the shared licence - PMR446 portable radios (operating in 446.0 – 446.2 MHz radio frequency band), car, alarm remotes, different WI-FI equipment (operating in 2.4 GHz and 5.2 GHz radio frequency band), Bluetooth headphones.

MOST COMMONLY USED SHARED RADIO FREQUENCY BANDS AND USE CONDITIONS

FREQUENCY BAND	TRANSMISSION POWER THRESHOLD VALUE	CONDITIONS, RESTRICTIONS FOR USE
PMR 446 and digital PMR 446 radio equipment for personal communication or communication in private electronic communication networks		
446.0 MHz– 446.2 MHz	500 mW	Type of transmitted signal – analogue, digital. Channel bandwidth 6.25 kHz or 12.5 kHz Built-in antenna (without external antenna connection).
Wireless microphones etc. (PMSE equipment)		
29.7–47 MHz	10 mW e.r.p.	Tunable devices. Channel spacing not more than 50 kHz.
863–865 MHz	10 mW e.r.p.	
1795–1804.8 MHz	20 mW e.i.r.p. 50 mW e.i.r.p. (on a body)	Tunable devices. 50 mW e.i.r.p. power is permitted only for devices to be worn on a body.
2400–2483.5 MHz	10 mW e.i.r.p.	Shared licence together with other short-range devices
5725–5875 MHz	25 mW e.i.r.p.	Shared licence together with other short-range devices
Non-specific short range devices (SRD)		
433.05–434.04 MHz	1 mW e.r.p. and power density – 13 dBm/10 kHz for modulation with a bandwidth greater than 250 kHz	Voice application is permitted to use with progressive interference reduction methods
433.05–434.04 MHz	10 mW e.r.p.	Threshold value of the 10 % operation cycle
434.04–434.79 MHz	10 mW e.r.p.	Threshold value of the 100 % operation cycle, where the channel spacing does not exceed 25 kHz. Voice application is permitted to use with progressive interference reduction methods.

...table continues

...table continuation

FREQUENCY BAND	TRANSMISSION POWER THRESHOLD VALUE	CONDITIONS, RESTRICTIONS FOR USE
863–868.6 MHz and 868.7–869.2 MHz	25 mW e.r.p.	Except analogue audio applications, which are not voice applications. Except analogue video applications
Broadband data communication devices		
2 400–2 483.5 MHz	100 mW e.i.r.p. and 100 mW/100 kHz e.i.r.p. density, if the frequency hopping modulation is used; 10 mW/MHz e.i.r.p. density, if another type modulation is used	
5150–5350 MHz	Maximum average e.i.r.p. is 200 mW. Maximum average density of e.i.r.p. is not bigger than 10 mW/MHz in any 1 MHz band	Only indoor use. Operation cycle: without restrictions. In 5250–5350 MHz band the radio equipment provides a dynamic frequency selection (DFS)
5470–5725 MHz	Maximum average e.i.r.p. 1W. Maximum average density of e.i.r.p. not bigger than 50 mW/MHz in any 1 MHz band	Indoor and outdoor use. Operation cycle: without restrictions. The radio equipment provides a dynamic frequency selection (DFS)

e.r.p. – Effective radiated power (multiplication of a power supplied to an antenna by the antenna amplification in a given direction relative to the half-wave dipole)

e.i.r.p. – Equivalent isotropically radiated power (a multiplication of a power supplied to an antenna by the antenna amplification in a given direction relative to the isotropic antenna)

HOW MUCH DOES THE SHARED OR INDIVIDUAL LICENCE FOR A RADIO EQUIPMENT COST?

- There is no individual charge for the reception of a **SHARED LICENCE**.
- The charge for the reception of an **INDIVIDUAL LICENCE** depends on the type of the used radio equipment, radio equipment output power, radio channel bandwidth, etc. parameters, therefore to find out accurate costs for an individual licence please turn to the Electronic Communications Office specialists (see the contact information in the last page of the informative material).
 - Approximate costs of individual licence are EUR 3.00/per day for each radio channel.
 - Approximate costs of individual licence for **wireless microphones and in-ear monitors** are EUR 0.3/per day for each band or radio channel;
 - Approximate costs of an individual licence for **video signal transmission radio links** are EUR 1.00/per day for each band or radio channel.
- The charge for an individual licence application examination starts from EUR 35.

WHAT IS NECESSARY TO RECEIVE AN INDIVIDUAL LICENCE FOR A RADIO EQUIPMENT?

In order to receive an **INDIVIDUAL LICENCE** for a radio frequency use, event organizers and/or their representatives, who are planning the use of radio communication equipment need to apply to Electronic Communications Office of Latvia (ECO) with a request (application) in a form of paper or electronic document. In the application, need to provide:

- *information about the licence demander;*
- *the necessary radio frequency band or the operation radio frequencies for the radio equipment;*
- *transmitter power, channel spacing;*
- *place or places scheduled for the radio equipment use;*
- *a scheduled duration for the radio equipment use from/to;*
- *the equipment type/manufacturer;*
- *the person responsible for the transmitting equipment use (contact phone).*

ECO may request to precise the submitted information or to request any additional information, for example, a detailed description of the radio equipment operation principle.

After receiving the application, the specialists of ECO make an assessment of the customer's application as soon as possible.

If ECO are unable to assign the frequency requested by a customer, then the customer is informed about it and an alternative frequency is offered.

UNAUTHORISED USE OF RADIOFREQUENCY SPECTRUM

A use of wireless radio equipment, not complying with the requirements of regulatory enactments of Latvia, may cause harmful radio communication interferences for other radio frequency spectrum users, including the communications of safety and emergency services, the air traffic control radio communications, the voice and data communication of public mobile connections, the FM radio and TV broadcasting, etc.

An administrative penalty can be applied for the radio equipment use in Latvia without an issued individual licence (if an individual licence is necessary) or the radio equipment use, which does not conform to the conditions of the shared licence.

If the legislative requirements about the use of a radio frequency spectrum are violated, Electronic Communications Office of Latvia (ECO) has the right to demand an immediate termination of the equipment operation.

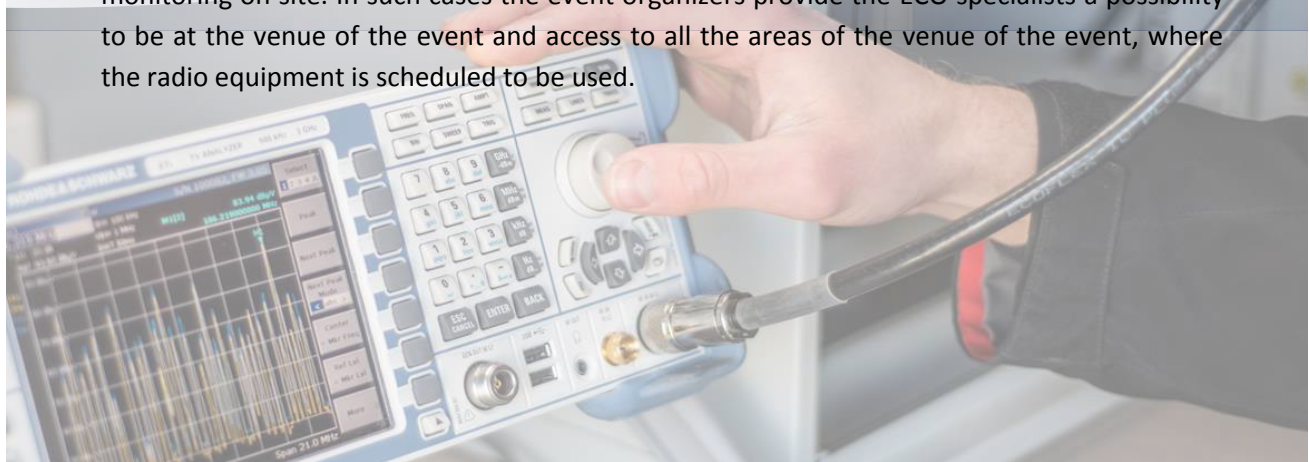

WHAT TO DO IF RADIO INTERFERENCES OCCUR?

The mutual radio interferences of the radio equipment, used and installed according to the conditions of the Shared licence, shall be considered as permitted or acceptable, and applications for their elimination shall not be examined.

In case if you have received an individual licence, and after the testing of your radio equipment there confirms that radio communication interference occurs, you must contact ECO specialists, who will provide a support to eliminate the radio communication interferences.

ENFORCEMENT ACTIVITIES OF ELECTRONIC COMMUNICATIONS OFFICE OF LATVIA DURING AN EVENT

In order to provide fast investigation of radio interference case or an unauthorised radio equipment usage case during major events, the ECO specialists, if necessary perform the radio monitoring on site. In such cases the event organizers provide the ECO specialists a possibility to be at the venue of the event and access to all the areas of the venue of the event, where the radio equipment is scheduled to be used.

WHAT NEED TO BE DONE BEFORE COMMENCING THE RADIO EQUIPMENT USE?

Electronic Communications Office (ECO) of Latvia asks the event organizers to make sure, if the radio equipment, used during the events, is installed in compliance with the requirements, stated by the manufacturer, and used according to the legislation of Latvia. Before the radio equipment use, especially during major events, it is important to check the radio equipment and its installation.

▪ CHECK, WHAT LICENCE IS NECESSARY FOR YOUR EQUIPMENT

If technical parameters of your transmitting radio equipment does not conform to the Shared licence (Annex No.3 to the Cabinet Regulations No.1151 from October 6, 2009), you need an Individual licence, issued by ECO. If you have any doubt, please contact ECO specialists:

- **about the issues of private mobile radio (PMR) communications** call: +371 67331789;
- **about the issues for use of PMSE equipment** (wireless microphones, etc.) call +371 67333157.

▪ CHECK, IF YOUR RADIO EQUIPMENT IS SET ON A RADIO FREQUENCY, WHICH IS PROVIDED IN THE LICENCE

- If your radio communications system uses the radio frequency couple (separate radio frequencies for reception (Rx) and transmission (Tx)), **MAKE SURE THAT THE COUPLE RADIO FREQUENCIES ARE CONFIGURED IN CONFORMITY WITH YOUR LICENCE**

▪ MAKE SURE THAT THE SET POWER OF YOUR RADIO EQUIPMENT DOES NOT EXCEED THE POWER PROVIDED IN THE LICENCE

▪ MAKE SURE THAT YOUR RADIO EQUIPMENT DOES NOT CAUSE UNWANTED EMISSIONS OUTSIDE THE INTENDED (PROVIDED IN THE LICENCE) RADIO CHANNEL

▪ USE SHIELDED, HIGH QUALITY CABLES

▪ IF NECESSARY, USE RADIO FREQUENCY FILTERS

▪ CHECK THE CABLE CONNECTIONS AND BATTERIES

▪ MAKE SURE THAT THE RECEIVING ANTENNAS ARE PLACED FAR ENOUGH FROM THE TRANSMITTING ANTENNAS

PROPERLY AND CAREFULLY PERFORMED CHECK WILL ESSENTIALLY REDUCE THE RISK FOR OCCURRENCE OF RADIO COMMUNICATION INTERFERENCES.

About Electronic Communications Office of Latvia

Electronic Communications Office of Latvia is the State Joint-stock Company, which, according to the Law of the Electronic Communications and other laws and regulations, performs the management function of the radio frequency spectrum use in Latvia – determines the radio frequency assignments for radio equipment operation, performs radio equipment operation monitoring, prevents radio communication interference and cooperates with communication administrations in other countries.

Electronic Communications Office of Latvia, realizing the functions, delegated by the state in the Law on Electronic Communications, participates in maintenance of a stable market environment of the electronic communication services and in promotion of the development of new electronic communication technologies and services.

**CUSTOMER IDENTIFICATION FORM
 (questionnaire)**

Electronic Communications Office of Latvia is obliged by the Law on International Sanctions and National Sanctions of the Republic of Latvia Section 11.3 which states that a subject governed by public law is prohibited from concluding a contract in the field of public or private law when international or national sanctions, or sanctions determined by a Member State of the European Union or North Atlantic Treaty Organisation that affect significant financial and capital market interests have been imposed and affect the performance of the contract. Therefore we kindly ask you to fill in this questionnaire. Thank you!

1. Customer's Background Information	
Legal entity name and legal form (JSC, LTD., association etc.)	
Country of registration	
Registration No.	
Registered office/Legal address	
Address where the client's economic activity is carried out (if different from legal address)	
Contact details (phone, e-mail)	
2. Ownership structure (mark as needed)	
Ownership structure:	
<input type="checkbox"/> one or more legal persons (please continue to 3.1.)	
<input type="checkbox"/> one or more natural persons (please continue to 3.2.)	
<input type="checkbox"/> one or more legal and natural persons (please continue to 3.1 and 3.2.)	
<input type="checkbox"/> other (to be specified) _____	
3. Customer's Owner Information	
3.1. Legal person	
Name and legal form (JSC, LTD., association etc.)	
Country of registration	
Registration No.	
Registered office/Legal address	
Name and legal form (JSC, LTD., association etc.)	
Country of registration	
Registration No.	
Registered office/Legal address	
3.2. Natural person	
First name, last name	
Personal code (personal identification number) or date of birth, month, year, place of birth (if the person does not have the personal code of the Republic of Latvia)	
First name, last name	
Personal code (personal identification number) or date of birth, month, year, place of birth (if the person does not have the personal code of the Republic of Latvia)	
4. Customer's beneficial owner (please fill in, if different from 3.2.)	
<i>Beneficial owner is a natural person who is the owner of the customer which is a legal person or legal arrangement or who controls the customer, or on whose behalf, for whose benefit or in whose interests business relationship is being established or an individual transaction is being executed</i>	
First name, last name	
Personal code (personal identification number) or date of birth, month, year, place of birth (if the person does not have the personal code of the Republic of Latvia)	

If the beneficial owner cannot be determined, <u>please give an explanation:</u>	
5. Customer's management	
The legal entity is managed by:

21.5 APPENDIX 5 – CUSTOMER IDENTIFICATION FORM (COMPLIANCE FORM)

APPLICATION FOR SHORT TERM FREQUENCY USE E-PERMIT

1. APPLICANT (ALL FIELDS REQUIRED)

Name (Company, Association, etc., Please write correct name!)		Legal address (Company, Association, etc.)
Company (Association, etc.) registration number, Please check registration No.!	Company (Association, etc.) E-mail*	
Responsible person during event, Phone / E-mail		E-PERMIT(S) WILL BE SENT ONLY ELECTRONICALLY BY E-MAIL*

2. BILLING INFORMATION

Billing postal address (in case of a specific address), **Billing E-mail**** (if differs from company e-mail *)

PLEASE TICK THE BOX TO RECEIVE INVOICE (-S) ELECTRONICALLY BY E-MAIL.** (invoice will not be sent to You by post)

3. EVENT

Name of the event

Time of use

Location (address) of the event

4. Walkie Talkie (two-way radio) RADIO EQUIPMENT USAGE

Number of frequencies	Preferred frequency, Tx/Rx, MHz	Alternative frequencies/ equipment operating frequency range	Channel Bandwidth, kHz	Class of Emission	Type of the equipment (manufacturer, model)	Max transmit power, W

Electronic Communications Office
 Eksporta str. 5, Riga, LV-1010, Latvia
 Registration No 40003021907

Phone: (+371) 67 333034
 E-mail: vases@vases.lv
 www.vases.lv

5. PMSE (Mics, in-ear monitors etc.) RADIO EQUIPMENT USAGE

Model	Manufacturer	Frequency band, MHz

6. PMSE (Video links - fixed, mobile, portable etc.) RADIO EQUIPMENT USAGE

Model	Manufacturer	Frequency, MHz	Tuning range, MHz	Class of Emission	Max transmit power, W

7. ADDITIONAL INFORMATION

I am informed that the applicant will be specified in the permit for the use of the radio frequency allocation as the addressee of the permit. Invoices will be issued to the addressee of the permit. By signing this request, I guarantee that I will pay the invoices of SJSK Elektroniskie sakari for the review of the request and provision of the electromagnetic compatibility of radio equipment in accordance with the valid price list.

8. SIGNATURE AREA *(The application should be signed by the person entitled to sign or duly authorised person. If duly authorised person sign the application, then please add the appropriate power of attorney.)*

Place, date	Position	Name, surname	Signature
-------------	----------	---------------	-----------

The "signature" detail of the document shall not be filled in if the electronic document has been executed in accordance with the laws and regulations on the execution of electronic documents.

Please e-mail to **Electronic Communications Office of Latvia** vases@vases.lv and Viesturs Kalnietis viesturs.kalnietis@vases.lv at least **30 days** prior to the event.

21.6 APPENDIX 6 – HELICOPTER REGISTRATION FORM

Registration for using the Helicopter during *Tet Rally Latvia*:

Entrant:

The aim of using Helicopter:

Date and time of using the Helicopter:

				2	0	2	4
--	--	--	--	---	---	---	---

From:

--	--

 :

--	--

 Till:

--	--

 :

--	--

				2	0	2	4
--	--	--	--	---	---	---	---

From:

--	--

 :

--	--

 Till:

--	--

 :

--	--

Information about the Helicopter:

Type and make:

Country identity and registration sign:

Information about the pilot of the Helicopter:

Name, Surname:

ID code:

Phone No.:

The appropriate Qualification certificate for the pilot:

Period of validity of the certificate:

3rd person insurance policy No.:

Period of validity of the insurance policy:

from DD/MM/YYYY till DD/MM/YYYY

The Pilot of the Helicopter must follow the current rules of Republic of Latvia regulating the air traffic. Rules of Latvian Rally Regulations that refer to the service and crew personnel action during the rally also have to be followed. Helicopters are allowed to land during the rally in places which are previously coordinated with the Organiser. Helicopters are not allowed to land in places which are nearer than 100 m from any marshal points in the rally route.

By submitting this application to the Organiser of the *Tet Rally Latvia* hereby confirm that information provided in this application is true.

I hereby pledge to follow and obey all current laws and regulations of Republic of Latvia regarding the safe air traffic and aircrafts.
