

"Mamma Mia"

We've been cheated by you since we don't know when.
So we made up our mind, it must come to an end.
Look at us now, will you ever learn?
Keep in the ground, or you know we will lose control.
There's a fire within our soul.
Ecosystems are depending on us!
This is urgent - there's no time to discuss, o-o-o-oh.

Mamma mia, here we go again.
My my, you can not ignore us!
Mamma mia, does it show again?
My my, just how much you bore us.
Yes, We are brokenhearted,
Blue since the day you started.
But no no, we're not gonna listen to you!
Mamma mia, now you really know,
my my, we will never let it go.

We are angry and sad about the things that you do.
We can't count all the times that we've told you we're through.
And when you go, when you slam the door,
We think you know that we won't be away too long,
you know that we're just that strong.
Keep the fossil fuels down in the ground.
This is urgent - and you just play around? o-o-o-oh.

Mamma mia, here we go again.
My my, you can not ignore us!
Mamma mia, does it show again?
My my, just how much you bore us.
Yes, we are brokenhearted,
Blue since the day you started.
But no no, we're not gonna listen to you!
Mamma mia, now you really know,
my my, we will never let it go.

Mamma mia, here we go again.
My my, you can not ignore us!
Mamma mia, does it show again?
My my, the Earth was here before us.
Yes, we are brokenhearted,
Blue since the day you started.
But no no, we're not gonna listen to you!
Mamma mia, now you really know,
my my, we will never let it go.

Are you ready?
Are you ready?
