

MONEY MONEY MONEY

We work all night, we work all day
To sell you one more getaway, aren't you glad?
We want you to get on a plane
Escape from flu and massive rain, that's so sad
We have come to let you know
If you stay home you'll miss the show
Just order now, we will arrange
No time to think of climate change

Money, money, money, is so funny
we will make you pay
Money, money, money, always sunny
Get it all today
Aha, aha, you deserve a good time
While we make a lot of money.
A commercial crime

You wanna see a polar bear?
go now 'cause soon it won't be there - ain't it sad
Pacific islands disappear we're pretty sure the end is near - that's too bad
but just relax, we'll keep you cool
and dive into our swimmingpool
We offer you a perfect dream
While global weather gets extreme

Money, money, money, is so funny
we will make you pay
Money, money, money, always sunny
Get it all today
Aha, aha, you deserve a good time
While we make a lot of money.
A commercial crime

Vamp

Money money why is it all about the money
Time to change the world
Money money why is it all about the money
Time to save the earth
