

## THE SHOW MUST GO ON

A heating planet, what are we waiting for?  
Another summit, we guess we know the score, on and on  
Does anybody know what we are waiting for?  
Another oil field, another mindless crime  
Behind the curtain, in the pantomime  
Hold the line  
Does anybody want to take it anymore?

The show must go on  
The show must go on  
Inside our hearts are breaking  
Our makeup may be flaking  
And our rage, still, stays on

Whatever happens, we have to call you out  
Saudi Aramco, we have to scream and shout, on and on  
Does anybody know what we are waiting for?  
Exxon, INEOS, Total and Equinor  
PetroChina - and even Dansk Offshore  
We know your game  
And we don't want to play it your way anymore

The show must go on  
The show must go on  
Inside our hearts are breaking  
Our makeup may be flaking  
And our rage, still, stays on

## VAMP

Listen INEOS, we will have to tell your boss  
your climate debt is growing fast, you have a bill to pay  
and payback time is now

Listen INEOS, we will have to tell your boss  
your climate debt is growing fast, you have a bill to pay  
and payback time is now  
payback time is noooow

The show must go on  
The show must go on  
We'll face it with a grin  
We're never giving in  
On with the show

The show must go on  
The show must go on, yeah  
Inside our hearts are breaking  
Our makeup may be flaking  
And our rage, still, stays on
