

7x har deltaget i et projekt om Uganda. Klasens skulle lærer om Uganda og fattigdom. Eleverne skulle skrive nogle breve til en skole i Uganda, hvorved vi på den måde kan lærer noget af hinandens kulturer. I forbindelse med projektet har vi været en tur til FN byen. Derudover har klassens plantet 8 æbletræer rundt på skolens grund som en del af projektet.

Hello!

We are two girls from Denmark named Ida and Sila and we hope you will enjoy our letter to you. Our school is called Krogaardskolen there is around 800 students and 58 teachers. We think it would be a little fun to tell you what our favorite subject is. Sila's favorite subject is English and Ida's is math. Now we would like to know what your favorite subject is.

The weather in Denmark:

In Denmark do we have four different seasons. A season is when the weather changes into something new. Spring is the time when all the flowers come out, In Summer is it warm, Fall is the time when it gets a little colder and all the leaves on the trees fall off and then at last is Winter. Winter is the time when there sometimes comes snow. Snow is water that is so cold that it freezes into small snowflakes. That kind looks like a star.

# Uganda Letter

Hello guy(s) or/and girl(s) from Uganda.

This letter is from two persons. Our names are Lucas and Anna.  
We are both 13 years old, and go on Krogaardskolen-Greve Town.

Krogaardskolen is a good school, with different teachers, and a lot of pupils. We have decorated walls somewhere on the school. But one of the most cool things on our school is our cafeteria. It sells food and water with taste. But! It doesn't sell any soda, candy, chips or anything like that. The cafeteria is trying to keep it a healthy way, which is pretty good, because a lot of people buy stuff there, and they would be fat, if it had been unhealthy food. It has a dish of the day, and comes with a food schedule so we know what there will be. But on our school, you have to pay for your food, if you want anything from the cafeteria. You can of course also just bring your own lunch. A normal school day is about 7 hours, and other days it is only 6 hours. We always go to school at 8am, and end the day at either 2pm or 3pm. But, we do get at least 1 hour a day, to have a break. It is separated over the day.

We are from Denmark. And Denmark isn't that big of a country. Not many know of it, but it lays in Europe. Denmark is right here:

Uganda is far far away from Denmark. But, it is possible to get to Denmark and back..

“Everything is possible”, isn't that what they say?

Anyways. Denmark is a nice small country.

But, in Denmark the weather change a lot. We can have the sun shining, the clouds raining, the clouds snowing, stormy weather and so on. But, in Denmark it isn't that warm, when we really want it. Last year our summer, was raining! And that is not something we like. Only farmers. But in Denmark we also have seasons. We have four different seasons. Winter, spring, summer and autumn. Winter is: December,
