
N-Wissen GmbH | QUALITY POLICY

N-Wissen GmbH is committed to good professional practice and to the high quality of its standards in servicing its clients. In order to achieve this goal, N-Wissen GmbH has established and is maintaining an effective Quality Management System to meet the requirements of DIN EN ISO 9001:2015.

The management of N-Wissen GmbH believes that only high-quality services and well-designed products manufactured to the highest standards can guarantee a long term and profitable relationships with our clients.

All the materials used are of high-quality and long-lasting. This is a basic criterion for choosing our suppliers.

Our high standard of service support must be maintained and continually developed to meet the continually changing expectations of our customers. It is our objective to maintain and build on our reputation within the market.

The Quality Assurance and Procedures describe how the system is operated and adherence to these procedures, by all the company's management and personnel, ensures that the company's quality objectives are achieved. Whilst the operating and maintaining of the Quality Management System rests with the Quality Manager, it is the responsibility of every employee to use their skills to ensure that the high quality of the products and services are constantly improved and maintained.

Our company promotes for equal chances as well as treatment of our employees regardless of gender, ethnic heritage, disabilities, age or religion.

N-Wissen GmbH commits to the following principles:

1. Prohibition of bribery and any kind of corruption.
2. Respecting the Human Rights of employees
3. Safety of employees
4. Treating our suppliers and business partners on non-discrimination principles
5. Maintaining Environmental Protection
6. Following the Export Restrictions
