

CHOOSING A BLIND JUST GOT EASIER

WITH LOUVOLITE'S AUGMENTED REALITY APP

Louvolite has created an app that allows you to visualise our amazing range of fabrics in the home, making it easier for your customers to visualise a blind in their own room setting, helping them to make the right choice.

Find the Louvolite app in your Apple or Android app store - just search for Louvolite AR to download it.

Once the app is installed, launch it and from the homepage you can easily select the product range that you would like to see - Roller & Vertical blinds are available now with other product types to follow soon.

SELECT A PRODUCT

Simply select a product you would like to see in your window.

Roller & Vertical blinds are currently available

1

FABRIC RANGE

Choose the fabric you would like to see first.

2

WATCH THE DEMO

A short demo will appear on how to position the blind on your window. Press start to continue.

3

BLIND POSITION

You will be asked to focus on a lower corner of your window.

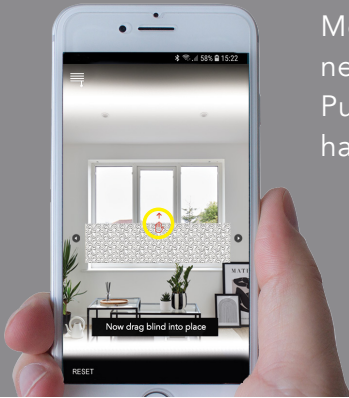

To find it you need to move close to a lower corner and wait till the circle turns green & then tap the circle to select.

4

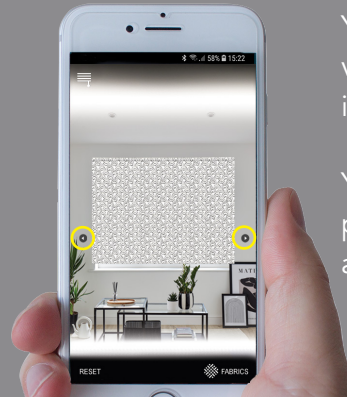

Once you have anchored on one corner of the window, walk to the other bottom corner and tap where you want the edge of the blind to end when the circle is green.

5

POSITION & VISUALISE THE BLIND

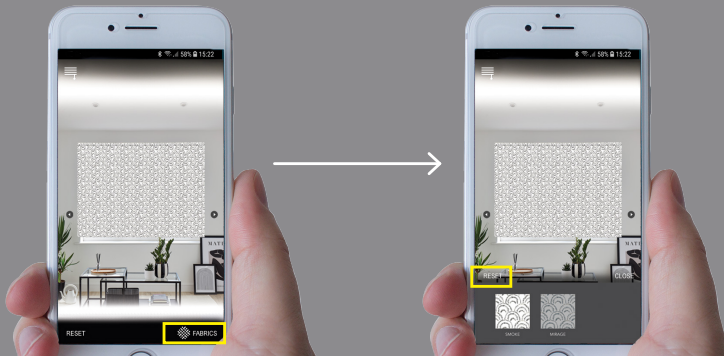

Move back as far as you need to to see the window. Pull the blind up using the hand & arrow shown.

You will now be able to visualise the chosen blind in your window.

You can also adjust the placement using the left and right arrows.

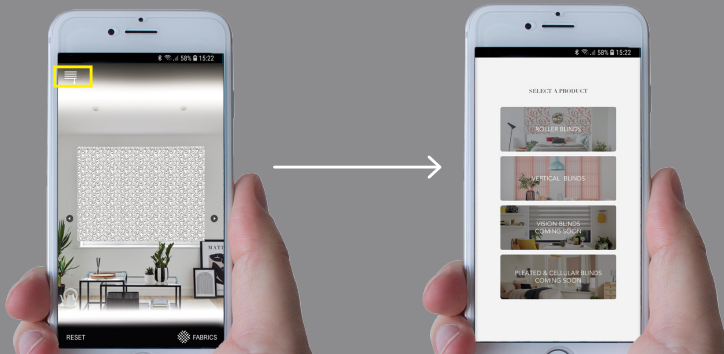

6

FABRIC SELECTION

Press 'Fabrics' in the bottom right to view the different colourways.

To change the product range you don't need to reset. Select the menu in the top left corner, it will take you back to the fabric range page. Selecting products will take you to the homepage where you can select a different product range.

Press 'Reset' to delete all the settings before moving on to another window.

7

HOW CAN LOUVOLITE AR HELP YOU?

- The app is free to download from the Apple Store & Play Store.
- A fun and creative experience that can be used on tablets and phones.
- The ability to screenshot can be sent to friends & family.
- It also helps you refer back to blinds chosen.
- Easy to switch between the different ranges.
- Helping you visualise the blind in your home.
- Demonstrates the real size of the fabric at the window.
- Gives you the confidence to make your decision on the fabric and style.
