

Mail from Ann Wright via women-united-against-nato mailing list 2023-07-10

The Global Women For Peace United Against NATO network with representatives of over 120 organizations from 35 countries, strongly opposes the use of Cluster Bombs and Weapons that contain Depleted Uranium and condemns the countries, namely the United States and the United Kingdom, that are sending them for use in Ukraine.

We warn the Government of Ukraine and the Russian Federation against the illegal and criminal use of these weapons.
