## HELMET EMBLEMS

You can leave your hat on...

Highlights • High definition • Strong colours • Any size or shape • Coloured carrier

### Helmet emblems

At construction sites there are often a lot of people working for different subcontractors. Identification is then a must. Our helmet emblems are ideal to identify and also to express your corporate identity on hard hats.

The helmet emblems are printed on a carefully selected adhesive film. This is chlorine and plasticizer free and follows phthalatenguideline 2005/84/EC.

The emblems are easily removed without causing damage to the helmet.

### Sizes

The helmet emblems can be produced in any size with a minimum quantity of 15 pieces only.

### Colours

Please refer to our colour swatch for our wide range of standard colours. Matching PMS is possible too.
