

HYTEX

Self-adhesive top quality labels for textile identification

Highlights • Self-adhesive • Soft and strong labels • Excellent wash resistance

What is Hytex

After the big success of both HiQ-tape and Plytex the two products have joined forces. The Hytex label is made of smooth HiQ-material with a selfadhesive back. Pre-printing of the labels in all colours is possible. Obviously Hytex is resistant to heavy industrial cleaning.

Hytex in practice

Hytex labels can be preprinted with your logo; with the HiQ printer you print the text. They are made for use on garments of any kind provided that the textile is permeable and because of the self adhesive layer the labels can be positioned on difficult spots without Sealed on the garment.

Supplies

The HiQ printer* incorporates the unequalled thermal transfer technique, which results in perfectly readable and virtually indestructible Hytex labels. The compatibility of the labels and the ink ribbon* is an extremely important part of this system. The printer is available in various versions.

Available label colours and sizes

Colour white

41 x 14,4 mm	84 x 14,4 mm
50 x 50 mm	84 x 23,4 mm
53 x 19 mm	84 x 36,1 mm
58 x 14,4 mm	84 x 48,4 mm

Packing unit

2 rolls of labels (2 x 50 m) and 1 ink ribbon (100 m)
