

Greater Copenhagen Career Program

Companies in Denmark need experts with specialized technical skills, international experience, and cultural understanding of foreign markets. As a mentor, you can help meet this need.

About the Greater Copenhagen Career Program

Established in 2012, the Greater Copenhagen Career Program (GCCP) is a 6-month program that offers international students residing in the metropolitan area personal development, job search seminars, and networking activities at Danish companies. In addition, each student is assigned a personal mentor.

The purpose of the program is to help students enter the Danish labor market.

Your Job as a Mentor

As a mentor, you are expected to meet your mentee 3–6 times during the 6-month program period. The meetings usually take place at the mentor's workplace.

The mentor and mentee must follow some simple guidelines to get the most out of the relationship:

- It's the mentee's obligation to draft the agenda for the meetings and to translate the learnings into his/her everyday life.
- The mentor is responsible for setting aside time for the meetings with the mentee.
- At the first meeting, a collaboration agreement is drawn up, setting and aligning the expectations between mentor and mentee.
- The focus of the mentor relationship is on the mentee's career only.
- The mentor-mentee relationship lasts 6 months.

Important dates for mentors in GCCP14:
