BDJ NEXT
FIBER BLOWING MACHINE

Mampaey Engineering

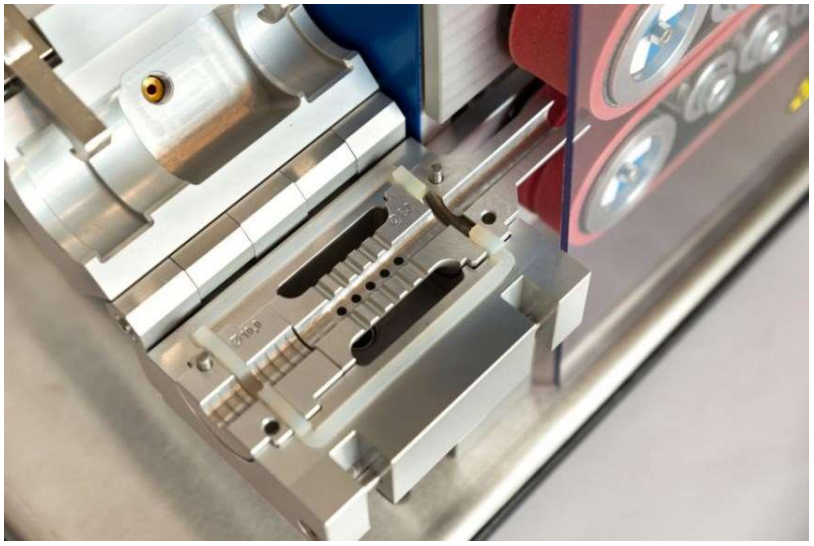
NEW

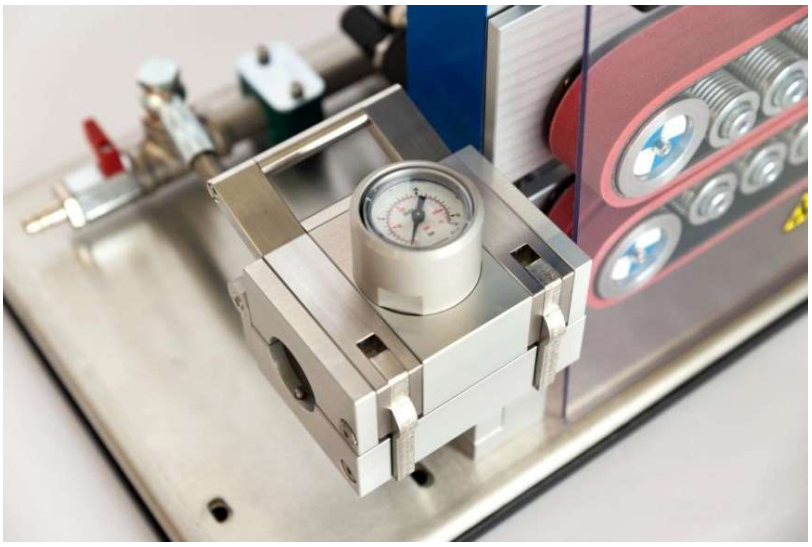
OUR TECHNOLOGY, YOUR SUCCESS

The BDJ NEXT cable blowing machine is an extension of our bestseller, BDJ EXTENDED, featuring a new and improved blowing head called the "M" Head.

WORK RANGE:

- **CABLE Ø 2,5 – 12 mm**
- **MICRODUCT Ø 5, 7, 10, 12, 14, 16, 20 mm**





What's New In the „M" Head?

- **Tool-Free Operating System** – No additional tools required for operating blowing head.
- **Quick Setup** – The manually closed head with a lever is ready to work within seconds!
- **Improved Sealing** – A specially designed sealing system ensures better airtightness.
- **Extended Guide Bushings** – Specially milled sections for feeder belts help prevent cable breakage both inside the head and at the entry point.
- **Optimized Airflow** – Special nozzles inside the cable guide bushing distribute air evenly around the cable inside the head.
- **Adjustable Head Support** – A specially designed support system allows for easier and more precise height adjustment of the head in relation to the feeder.
