JÄRVED, Sweden, and LEUVEN, Belgium - October 1, 2019

Today, Nordic Medtech AB and **icomatrix** announce a strategic partnership, with the goal to further standardize and improve the care of patients with neurological disorders in the Nordic and Baltic countries.

Determining the right diagnosis and treatment for patients with neurological disorders is a great challenge in the healthcare sector. This, together with the availability and continuous development of multiple treatments, emphasizes the need for early diagnosis and prompt treatment optimization.

With this partnership, Nordic Medtech AB will represent **icomatrix**' entire **icobrain** portfolio as a direct supplier in the Nordic and Baltic countries. The clinically approved **icobrain** solutions assist in the enhanced diagnosis and follow-up of people with multiple sclerosis, dementia, brain trauma and epilepsy. It enables radiologists and neurologists to quantify and track different brain abnormalities on patients' MRI and CT scans using AI. **icobrain** presents this information in a concise report, including healthy control data, which aids in the interpretation and communication of the results.

Nordic Medtech's CEO Pierre Vestman is proud to secure a partnership with **icomatrix** in the company's efforts to offer the most advanced solutions to aid in the early diagnosis, support, and treatment of neurological diseases. *"Nordic Medtech's agreement with **icomatrix**, will allow us to offer our customers one of the market's leading players in the field of diagnosis and monitoring with the support of Artificial Intelligence. AI in diagnosis is undoubtedly an important piece of the puzzle to create the optimal care. With, among else, many scientific publications behind them we see **icomatrix** being the obvious partner."*

*"We are delighted to work together with Nordic Medtech AB as distributor for the Nordic and Baltic countries" stated Wim Van Hecke, CEO of **icomatrix**, "The experience of many years in the field of radiology and specifically also in the field of MRI, gathered by the people driving Nordic Medtech, will absolutely contribute to the right support for the **icomatrix** products in the Nordic and Baltic Countries"*

About icomatrix
