

# Fun Harvest Activities

## Apple and Spoon Race

Rather than an egg and spoon race, how about an apple and spoon race! Children race from start to finish whilst trying not to drop their newly harvested apple!

## Best Dressed Scarecrow

Children can be provided with a variety of materials to create an outfit for a scarecrow. Why not ask an important guest to your party to judge the competition?

## Make Harvest Hay Bales

Use this [Harvest Hay Bale Recipe](#) to create some fun Harvest-themed snacks. Children can get their hands messy mixing the ingredients and this is also a great opportunity to talk about where wheat and rice comes from.

## Go on a Harvest Food Scavenger Hunt

Hide some harvest fruits and vegetables around your classroom. Give the children one of these [Harvest Food Checklists](#) and let them check them off as they find them! This is a great way to familiarise children with harvest foods and will stimulate lots of discussion.

## Play Harvest Bingo

Put this [Harvest Bingo Game](#) out for the children to play. They will love being the bingo caller and this provides great opportunities for recognising and reading harvest topic words.

## Make Harvest Apple Punch

Why not get the children involved in making some punch for a harvest party using this [Harvest Apple Punch Recipe](#).
