To organise any trips and activities we would need to be guided by numbers attending, if they are too low it would not be viable to run a trip/offsite activity.

If this happened, we would plan to close the group.

There may also be opportunities for staff to provide some 1:1 support if groups are not running, but this would need to be discussed individually with a manager so we could look at availability and the individual needs.

WE hope this calendar helps in your forward planning and we will post the dates onto the website and Facebook platforms.

Take Care
Kind Regards
