**Natural Stone holds a beauty that lasts an eternity  
but is renowned for being heavy and awkward to work with.**

**By bonding a thin layer of stone to a lightweight carrier panel  
CRISTOFOLI INTERNATIONAL offers you the practical solution.**

**Thanks to the KEIL attachment technology  
we can provide a secure fixing directly to the stone.  
Easy handling and installation without compromising strength or elegance.**

**Our Lightweight Stone Panels are suitable for numerous applications including  
building interiors, cladding and perfect for fast installations  
where weight has to be kept to a minimum.**

**Dimension slab: cut to size to project requirement  
Thickness: subject to material, 12 mm to 15 mm stone**

For your project requirement please contact:
