

LEWIS® 0.7MM METAL DECK FACADE AND ROOFING

For use as a support to traditional metal, such as copper, zinc, aluminium and stainless steel

BENEFITS IN FACADE FIXING WITH LEWIS®

- ◆ Fire safe galvanised to highest standards
- ◆ 0.7mm deck provides superb pull out
- ◆ 16mm depth makes it an excellent replacement for WBP Plywood
- ◆ No increase in depth on refurbishment projects
- ◆ Can be curved to tight radius
- ◆ Exceptional rigidity due to unique profile design
- ◆ No requirements to stitch joints
- ◆ Sheets interlock together via unique dovetail profile
- ◆ 3000mm lengths standard
- ◆ Other lengths on request
- ◆ Ease of installation and fixing
