

Product

Acoustic fence made of steel, stone wool (core and acoustic material) and green PE netting

Noise Damping Features

- Insulation: 22dB according to EN 1793-2 (B2)
- Absorption: 8dB according to EN 1793-1 (A3)

Stone wool – Core Material Characteristics

Euro class A2 (s1, d0) according to CEN fire safety standard:

- Non-combustible
- Minimum smoke generation
- No emission of toxic gasses
- No burning droplets
- Withstands temperatures in excess of 1000°C
- The stone wool core is water repellent

Product Dimensions

Length (cm)	Height (cm)	Width (cm)	Weight pr. element (kg)	Elements per pallet
100	100	11	30,0	20
100	90	11	27,0	20
100	45	11	13,5	40
200	100	11	60,0	10
200	90	11	53,5	10
200	60	11	36,0	10
200	45	11	27,0	20
300	60	11	53,5	20 or 10
300	40	11	36,0	20

Decorative Surface

- PE Netting (Polythene)

Steel Frame and Grid

- Galvanization thickness: 70 µm according to ISO 1461

Mechanical Strength

- Wind load test: Tested to maximum load 2.49 kN/m² (storm 24 m/s = 0.81 kN/m²) according to EN1794-1

Disclaimer:

Efforts are made to ensure that the information contained in this Technical Data Sheet (TDS) is correct at the date of publication. Whilst Lapinus (ROCKWOOL B.V.) will endeavour to keep this publication up to date, improvements might be made to the product in between publications, or other developments or regulatory changes affecting the accuracy of the information contained in this TDS might take place. - The application specified does not necessarily represent an exhaustive list of applications for Noistop® Steel. Lapinus (ROCKWOOL B.V.) does not accept responsibility for the consequences of using Noistop® Steel in applications different from the one described. Expert advice should be sought where such different applications are contemplated. Nothing in this TDS shall be regarded as granting any warranties or guarantees as to the products or applications and/or use thereof.
