

Dear parents and carers,

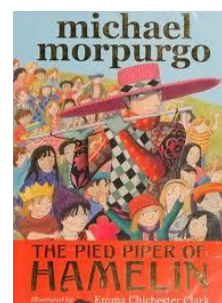

## Maths

This week, we have specifically focused on learning about **capacity**. The children understood the difference in meaning between the words '**volume**' and '**capacity**'. We also learnt that volume of a liquid is often measured using a beaker or a measuring cylinder.

## English

Next week is our final week studying the book 'The Pied Piper of Hamelin'. To conclude our learning, the children will have a chance to write their own myth-like story based on a stranger arriving in town to solve a problem!

## Science

Our topic for science this half term is '**light**'. This week, the children learnt how light behaves when it is reflected. Can you ask your child if they can remember how light is reflected and which type of surfaces reflect light the best?

**Extra task:** Create an informative poster about light. Use this clip to help you if you are unsure: <https://www.youtube.com/watch?v=d7yTlp4gBTI>

## History

As part of our project '**Emperors and Empires**', we have been learning about the growth of the Roman Empire. The children learnt that ancient Rome was ruled in three different ways. Can you ask your child if they can remember the three?

Have a good weekend! **Miss Hewitt, Miss Selvam, Miss Yang**

**Let us be concerned for one another, to help one another to show love and to do good.**  
**Hebrews 10:24**
