

# Living Panel

---

1 Living Panel, 2 modules  
2 Living Panel, 5 modules

---

3 Living Panel, 4 modules

Would you like to present your planting walls perfectly?  
Why not present 1 or more planters in the same room?  
Make a great impression!

## Vertical wall greening without limits

One, two or even a whole wall full of green plants? With Living Panels there are no limits to horizontal room greening. These can be purchased as required with or without side panels.

- Low net weight of individual modules
- Quick assembly
- Automatic watering possible using conventional systems
- Double-walled with integrated overflow protection pockets
- Sophisticated, powder coated side panel are available

### i Did you know...

... that the modules can be extended horizontally as required?  
 Plan your next project with us!  
 If you just want to erect one panel, you will only need one set of side panels and a drip tray (article No. 267057). If you are planning additional panels, you will need a drip tray extension set for each panel (article No. 267058).

Living Panel without side panel
