

International Conference on New Peer Learning with Augmented Reality Apps

- 09 November 2023, Greece -
|KA220-HED-F104E23A|

- CALL FOR PAPERS -

Dear Colleagues/Professors/Students,

Augmented Reality (AR) has emerged as a promising technology with applications across various domains, including education. Integrating AR into the classroom has the potential to revolutionize traditional teaching methods and enhance the learning experience for students. This analysis aims to explore the correlation between the idea of implementing augmented reality in the classroom and the current state of the art in augmented reality technology.

Our project create innovative open specialized educational resources for physical education educators that help implement and integrate active and collaborative learning pedagogical approaches supported by AR. This will enrich the teaching practice and support inclusive, peer to peer learning relevant to the requirements and preferences of the students.

The N-Pear project further develops visual representations in learning and participatory learning approaches, specialized in physical education.

- WELCOME TO OUR CONFERENCE -

We would like to invite you to contribute to and participate in the International Conference on New Peer Learning with Augmented Reality Apps (NPEAR 2023), which will be held in Greece, during November 6-8, 2023. NPEAR 2023 is a forum for presenting excellent results and new challenges facing the field of Augmented Reality and Education. It brings together experts from Pedagogy, Governments and Academia, experienced in IT, Education and research.

The conference has been financed from Cooperation partnerships in higher education Form ID KA220-HED-F104E23. The NPEAR 2023 offers a rich program, including keynote speeches, regular presentations, workshops, academic visiting or tour. We need your contribution and participation to make it a successful event.

Looking forward to seeing you in Greece, Greece in November 2023

The participation in the international conference may be under following categories:

- Original Research Articles
- Published Articles
- Research Poster
- Dissertation/ PhD Synopsis
- Abstract/ Paper/ Synopsis Submission

Prospective authors are invited to submit Full Papers/ Abstract of Original Research work or, Synopsis of Ph.D./Dissertation, Published work, Viewpoints or Way Forward/ Poster by filling the online application form.

Prospective authors are invited to submit original technical papers, for publication in oral presentation during the conference.

- **Language:** All submissions should be written in English.
- **Submission Types:** Abstract submission for presentation only without publication; Full paper submission for both presentation and publication.
- **Paper Length:** The submitted papers should be **no less than 6 pages**. Papers exceeding 12 pages will not be accepted.

Submit Your Manuscript

1. Submit your full paper or abstract with our template
2. The conference secretary will assign a Paper ID to the submission from info@npear-com within three working days. To ensure receipt of all correspondence from the conference, please add info@npear-com as acceptable emails to receive.

Review Process

1. Each paper will be subject to preliminary review such as relevance to the conference topics, repeated publication and repeated submission. The conference secretary will inform authors the preliminary review result via email around 10 days. Papers found to commit plagiarism or repeated publications will be rejected directly, and the left will be sent to guest editors.
2. Guest editors will appoint 2-3 suitable NPEAR members / sub-reviewers to review each paper based on the reviewers' research fields and topics of the submissions. Reviewers will be allotted 1-2 weeks to finish the review reports.
3. Guest editors make decisions (accept, accept with minor revision, accept with major revision, and reject) according to the review reports. If necessary, the guest editor will discuss with other NPEAR chairs in reaching the final decision.
4. The acceptance or rejection notification along with the review comments will be sent to authors via email. Revisions (accept with minor revision and accept with major revision) should be made before the deadline and sent back for review again until meet the accept standard, and the revised articles will also be reviewed by the initial reviewers.

Prevent Plagiarism

NPEAR is utterly intolerant of plagiarism. Submitted papers are expected to contain original work executed by the authors with adequate, proper and scholarly citations to the work of others. It is the job of the authors to clearly identify both their own contribution(s) and also published results / techniques on which they depend or build. Reviewers are charged to ensure these standards are met.
