

#### Special points of interest:

- We had six tasks completed in the last six months
- We have had a further five requests for new tasks
- We have a workgroup set up looking at the role description of FDC
- We will be having elections for FDC in Marbella, September 2013

Volume 1, Issue 1

March 2013

EUROPEAN DELEGATES MEETING

# Fellowship Development Newsletter

## What is happening in the world of Fellowship Development?

We had a very productive time at the latest EDM held in Zagreb, Croatia.

We decided to start this newsletter and will be putting this together once a month for the delegates. If you feel you have news from your community that can be part of the ongoing editions just let us know.

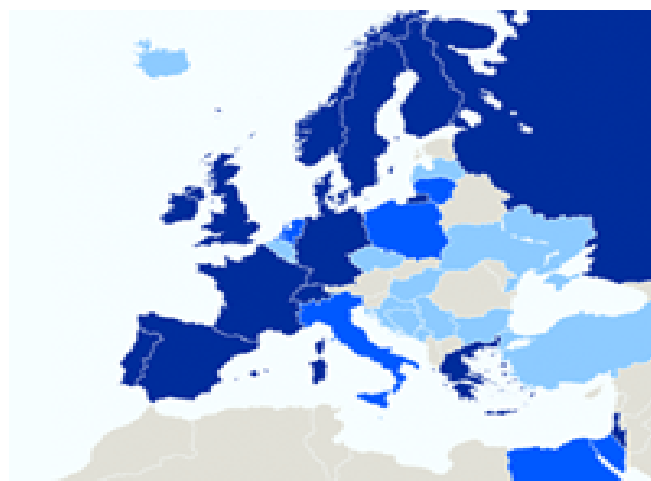

We have the TT that Helge, German Speaking Region is heading up which is ongoing. The TT are looking at joining up work needed in Moldova, Romania & Ukraine to set up a learning day. If you have experience in H&I Helge may want to hear from you so drop him a line if you are interested in this TT.

We also have a newly formed TT being headed up by Andy, UK which will be for the combined needs of Poland and Czech-Slovak's. the Polish Region have requested a Twelve Concepts

workshop at their convention in May 2013 and we are hoping to combine this with the need for follow-up workshops for the Czech-Slovak Region.

These TT have been formulated and started and the FDC is looking to get the other requests up and running as well, but we will keep you updated as we go along.

Our hope is that we will create a flow between neighbouring communities supporting each other in the new work needed throughout the EDM, we all have great resources whether we are a new up and coming community or an older more established community.

### FDC Workgroup

One of the decisions at the EDM was to set up a workgroup to look at the outdated role description of FDC. Since the drastic changes made in Malta of how fellowship development is done the role has changed hugely. With the upcoming elections for FDC in September at Marbella it was felt that the role remit didn't actually fit the work that the current committee are doing. Whilst

they will be looking at the role they will also look at how the financial accountability within the TT can be more transparent. The guidelines for FDC are long overdue for an overhaul and this is a big job for the workgroup but we have every faith that they will do a great job and look forward to the results.

### FDC Elections

The elections will be taking place for FDC in September 2013 in Marbella.

If you have anyone who would like to know more about the role before standing for the position please get them to email us on [FDC@edmna.org](mailto:FDC@edmna.org) and we will try and answer any of their questions.
