

NORDIC

Association of Fire Investigators

Business Plan 2021

NAFI will continue to continue the work of improving communication on social or other media in order to get more member involvement in fire related discussions.

NAFI will work for holding webinars, on-line courses and practical fire investigation courses if possible.

NAFI will continue its efforts to promote quality in fire investigations and increase awareness of the use of scientific working methods.

NAFI will continue to work to ensure that members are aware of quality at all stages of the investigation, both at the fire site, analysis of the investigation results, report writing and in the quality assurance of the individual reports.

NAFI will share knowledge about conferences and seminars that members can attend.

NAFI will continue to work to maintain and expand the network.

NAFI will work to support and co-operate with the Nordic Fire Group on the Nordic Fire Conference 2021

NAFI will continue to support and participate in the development of technologies, which can help in fire investigation.
