Name: Aditi
D.O.B.: 16th July 2017
Age: 9 years
Class: 4th
Father's Name: Amod Singh
Mother's Name: Anjana Devi

Dear Sponsor,

Aditi is a 9 years old girl. At present she is studying in 4th standard in the Government School located within the village. She is a happy child. She likes to go to school. She dreams to become a teacher.

Aditi lives in Nikau Village in Firozabad district in Uttar Pradesh State. There are total five members in the family including her grandmother. She has one more brother. The good thing is that Aditi parents both could complete their schooling. But due to poor economic situation of the family, her father had to leave the education and started working as a farmer. Presently, he still working as a farmer earns an average income of INR 10000/- to INR 12000/- per month, depending on the sale of the agriculture produce. As Aditi's father's income is not sufficient to take care of the daily requirements of the family, her mother also decided to work. She is working under a contractor within the village and decorating bangles. She earns an average INR 80/- to INR 120/- per day (though it is depending on the availability of work).

Aditi's parents could not complete their education. But while talking to his mother, she wishes that Aditi and her brother should go for higher education.

Aditi and the family are in good health. For serious illnesses they are visiting local quacks in the village. For serious illness they visit public hospital, which is 25 kms from their community. Fortunately they have their own parental house. But their living condition is poor.

Due to the weak socio economic condition of the family, it is important that Aditi is supported so that she can continue her studies. This will help her to have continuity and better future possibilities. Aditi also loves to go to school. Therefore, Tara recommends Aditi for the sponsorship support.

We are sure that the decision to provide sponsorship support to Aditi will encourage her to continue her studies and will motivate the family for the continuation of her studies in the long run. So that she can become self dependent.

Aditi with her Family

Thank you for your support
