

2060

Description

2060 is a fast-acting water-based liquid alkali cleaner/degreaser. Formulated from environmentally friendly materials, it is cost-effective and can be used in a wide variety of situations. It is particularly good at removing wax, grease and oil from hard surfaces such as metals, concrete, stone etc. As a floor cleaner it works well on areas that have been neglected or subject to heavy use.

Features

- Powerful cleaner/degreaser
- Low odour
- High pH – helps cut through grease
- Use hot or cold
- Biodegradable

Typical Physical Properties

Appearance	: Straw coloured liquid
Specific Gravity	: 1.06 at 20°C
pH of 1% solution	: 12 – 12.5
Specific Gravity	: 1.06 at 20°C

Application

Tests for suitability are advised. 2060 can be used either neat or diluted with water and it has been shown to be effective when diluted to as little as 1%. However, the necessary dilution depends on the application and should be determined by first testing on an inconspicuous area. Not suitable for cleaning aluminium and its alloys

Handling

Wear eye protection and rubber gloves. Avoid ingestion. Keep off skin. Avoid spilling onto paintwork. See safety data sheet for more details

Packaging

2060 is available in non-returnable plastic drums of 5, 20 and 200 litres capacity and in IBC's.
